Camco THE ADVANCED "MODERNAIRE" OUTFIT

Here is the "Big Apple" of all drum outfits . . . designed for the drummer who is seeking the complete range of sounds—with true drum character in every beat—and with a full measure of modern styling and mechanical perfection. This set is for both large and small bands. It is right for the classics or for jazz. There is nothing finer to be had and nothing that will give greater playing satisfaction and eye appeal than the advanced "MODERNAIRE."

THE "ARISTOCRAT"

A great number of top ranking professionals declare the 5 x 14 size drum to be the best for those who do all-around work with different groups. The "ARISTOCRAT" 5 x 14 has both delicacy and volume and will withstand hard usage on the road. It is a "tailor-made" instrument of mechanical efficiency and modern styling . . . A wonderful easy-playing drum, with sounds that will please the perfectionist.

6½" DRUMS HAVE DOUBLE ROW OF CASINGS

THE BAND "ARISTOCRAT"

This is a real "drummer's drum," with colorful, rich and penetrating sounds that make it the very "tops" for large concert bands and orchestras. It is the correct size for producing great volume; yet it is so sensitive that it can be played down to a "whisper." Like all "ARISTOCRATS," it is very carefully made in every part—even to finishing the inside of the shell.

"ARISTOCRAT" BASS DRUMS

Drummers and leaders in both the school and professional fields must have the particular "sound style" that blends in with the musical character of their special organization. Jobbing drummers often have to alter the sounds for different groups. We are, therefore, building our bass drums to withstand the ally bonded shells, with reinforcing hoops. The steel double claw hooks are of thicker gauge and have a wider bearing surface than those on most drums. The finishes are top grade, including hand-rubbed lacquers. These are indeed rugged, beautiful drums that can be adjusted to sounds required on any job.

		Lacquer	Pearl

BASS DRUM RACK

Over 1,000 high school, college and professional bass drummers are now using this—the top prize winner of all bass drum racks. Many have voluntarily stated that it is the strongest and best looking rack they have ever seen. Made of 1" diameter steel tubing instead of the usual 3/4" size. All chrome plated. It also opens wider and will accommodate the largest drums.

1200 Chrome \$21.00

An old reliable rigid model — Padded seat. Back rest \$2.25 extra.

865-C Chrome ... \$19.75

865-N Nickel ... \$16.75

CAMCO PEDAL PRACTICE PAD

The importance of "foot work" in modern drumming equals that of stick technique. This practical pedal practice pad is the most advanced design made. It is well made of aluminum and steel parts, with a rubber disc beating surface. Takes up very little space. It will definitely improve "the beat."

1000 \$7.50

AVEDIS ZILDJIAN CYMBALS

No other make of cymbal in the world has the wide endorsement of the Avedis Zildjian brand. They have that "something" in blare, brilliance and rich sounds that has never been equalled. That, of course, is the reason the great majority of professional drummers, as well as concert band and symphony orchestra conductors, choose them above all others both in this country and abroad. Avedis Zildjian and his sons—Bob and Armand—personally mix the secret alloy in a closely-guarded laboratory, just as it was formulated in 1623. After casting they are fired, hammered, shaped and tempered many times under high temperatures. All of this (and much more) plus great skill, assures the resonance and strength for which they are world-famous.

Please specify thickness desired.	12" 25.00 B
Extra Thin	13" 30.00 B
Thin	14" 33.00 B
Medium	15" 37.00 B
Medium Heavy	16" 40.00 B
Heavy	17" 45.00 B
	18" 50.00 B
	19" 55.00 B

CAMCO DELUXE PEDAL

**"THE PEDAL OF
PEERLESS PERFORMANCE"**

The vast number of "Big Names" who are using the Camco Deluxe Pedal is definite proof that it has stood the test of time and fully meets the exacting demands of the Modern Drummer.

Its mechanical perfection plus rugged construction are two of the chief reasons for its popularity.

Simplicity of adjustments eliminates guess-work and permits the Drummer to arrive at the desired feel, balance and flow; and with just the right amount of resistance that suits him best . . . This assures smooth, easy and fast action at all tempos.

Positively frictionless and quiet.

Here is the pedal that does not divert the mind, allowing the Drummer to put more emphasis on stick technique.

5000 \$22.50
Ball Bearings

Polished aluminum and chromium-plated parts . . . equipped with solid felt beater ball unless otherwise specified . . . weighs only 3½ lbs. . . . folds easily and compactly without removing any parts whatever.

CAMCO STANDARD PEDAL

"Exceptional Efficiency in a Lower-Priced Model"

Polished aluminum and baked enamel parts . . . equipped with cork beater ball . . . weighs 3½ lbs. . . . folds compactly without removing any parts.

PURDUE BELL-LYRA MALLETS

New balance assures accurate aim—positively guaranteed unbreakable balls. The strongest mallets ever made. You can be sure that the balls will not break. Shafts are of 1/8" special alloy carbon magnesium steel made to our order. The hand grips are semi-hard ribbed rubber. These exclusive features provide a new feel and balance that means better control and therefore better playing technique. One of the most outstanding inventions ever presented in the percussion dept. They are slightly higher in cost because of better materials and workmanship, but they will outlast dozens of the old style models, therefore are much cheaper in the long run.

Originally presented by a member of the Purdue Engineering School and used with great success in the famous Purdue Symphonic Band—Al G. Wright, Conductor—in concert and rugged playing on the football field. Developed and made exclusively by Camco Drum Company by permission of Purdue Bands and available to all musical organizations.

INSTRUCTION BOOKS

**PRACTICAL
PERCUSSION STUDIES**
BOB TILLES — \$4.00B

Designed for the playing drummer. Contains typical modern scores for both jazz and classical music. Exercises include the use of the entire drum set. Modern syncopated studies for use with and without the entire drum set.

**LATIN-AMERICAN
HUMBERTO MORALES
AND HENRY ADLER**
\$3.00B

... contains a series of exercises written for Latin-American instruments, together with numerous illustrations showing the correct method of playing these instruments. The text is written in both Spanish and English.

**A MODERN APPROACH
TO INDEPENDENCE FOR
THE ADVANCED
DRUMMER**

NICK CEROLI—\$4.00B
This book is designed to give drummer ability to play one rhythm against another.

**ELEMENTARY METHOD
OF DRUMMING**

NAT LESLIE—\$1.50B
This new method book is for beginners who wish to learn how to play the most important rhythm instrument in any jazz band, concert orchestra or rock and roll combo.

TYMPANI METHOD
**ALFRED FRIESE AND
ALEXANDER LEPAK**
\$5.00B

A complete method for TYMPANI in 4 parts: BASIC THEORY, TECHNIQUE, INTONATION and REPERTOIRE ... written and assembled to fill an urgent need by America's leading authorities.

DRUM METHOD No. 1
HASKELL W. HARR
\$1.50B

A tremendous book for both teacher and student, explains fully all fundamentals, notation and rudiments.

DRUM METHOD No. 2
HASKELL W. HARR
\$1.50B

Reviews carefully previous studies with stronger emphasis on rudiments and advances the student to competition solo work.

**AROUND THE DRUMS
WITH TRIPLETS**
PAUL CAPOZZOLI—
Vol. 1 \$1.50

A book to help drummer technique and ideas for his own solos.

**AROUND THE DRUMS
WITH OPEN ROLLS**
PAUL CAPOZZOLI—
Vol. 2 \$1.50

A book written to help the student develop technique and solo ideas of his own.

**SYNCOATED ROLLS
FOR THE MODERN
DRUMMER**
JIM BLACKLEY

A book designed to help in the development of rhythmic sense and the abundance of roll possibilities available.
Vol. 1—\$2.50
Vol. 2— 2.50

PURDUE BELL-LYRA MALLETS

New balance assures accurate aim—positively guaranteed unbreakable balls. The strongest mallets ever made. You can be sure that the balls will not break. Shafts are of 1/8" special alloy carbon magnesium steel made to our order. The hand grips are semi-hard ribbed rubber. These exclusive features provide a new feel and balance that means better control and therefore better playing technique. One of the most outstanding inventions ever presented in the percussion dept. They are slightly higher in cost because of better materials and workmanship, but they will outlast dozens of the old style models, therefore are much cheaper in the long run.

Originally presented by a member of the Purdue Engineering School and used with great success in the famous Purdue Symphonic Band—Al G. Wright, Conductor—in concert and rugged playing on the football field. Developed and made exclusively by Camco Drum Company by permission of Purdue Bands and available to all musical organizations.
