

Built to professional standards without the professional price, the *Catalina Elite* series include GTS Suspension mounting systems, quick size toms, and professional heads on all drums. The *Catalina Elite* series is available in two configurations along with a full range of add-on drums.

CE-F825 Fusion Shell Pack in Ruby Red. 8"x10", 9"x12", 11"x14", 16"x22", 5"x14" with tom holders. Shown with 5600PK hardware pack.

CE-S605 Grand Prix Shell Pack in Smokey Black. 8"x10", 9"x12", 14"x14", 16"x20", 5"x14" with tom holder. Shown with 5600PK hardware pack.

Bass drums are accented with high gloss natural Maple bass drum hoops.

Catalina Elite drums feature 6-ply Mahogany shells in UV lacquer finishes and a 45-degree bearing edge for enhanced attack and projection.

A fully adjustable double tom holder with 12.7mm arms and memory locks is standard with all *Catalina Elite* shell packs.

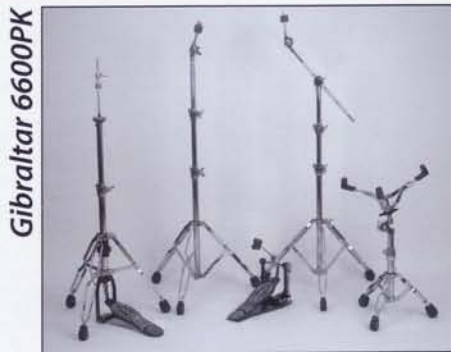

Catalina Elite shell packs include a 5" x 14", 8-lug wood shell snare drum, finished in matching gloss UV lacquer.

USA Maple drums feature the original Gretsch 6 ply maple shell design in satin finishes. All drums have 30-degree bearing edges and the exclusive Gretsch silver sealer.

USA Maple drums include single ply coated Permatone heads on all toms and snares along with pre-muffled bass drum heads.

Matching 14" snare drums are available in depths of 5", 6" and 7" inches. All snares feature the Gretsch drop style throw-off and fixed butt plate.

Bass Drums are accented with matching satin finish hoops and die-cast claw hooks.

The GT-STCR and GT-STCL Single toms arms include an adjustable multi-clamp for mounting to any size tube. All pre-configured shell packs include tom arms.

GTS Suspension Systems are standard on all mounted toms for increased projection and resonance.

Professional hand polished die-cast tension castings with rubber isolators are standard on all *USA Maple* drums.

Traditional Gretsch die-cast hoops are standard on all toms and snare drums for easier tuning and a focused sound.
