### The glorious past

Serving drummers worldwide since 1922, Premier remains at the forefront of drum set design, innovation and development.

Premier is the UK's oldest surviving major manufacturer of drums and percussion, a company that is rich in history and tradition. Following a rise to success in the post-Great War jazz age, Premier became one of the most innovative and admired drum companies in the world. Its name has been associated with a wealth of star performers in many musical genres, not only at home in England, but all over the world. From the monster-set-ups of stadium filling rockers, to the compact kits championed by the jazz world, Premier continues to deliver 'must have' instruments.

Alongside a proud history within the worlds of marching and orchestral, Premier drum sets continue to break new ground and provide the very best for players of all levels. Many products and features have become household names within the drumming world and current research and development ensures that this legacy of innovation continues.

Today, many leading artists chose Premier who, with their extensive experience, help to shape our product range, providing an invaluable source of inspiration.

Truly one of the most iconic names in the world of music, you'll find that our sense of pride is infectious. We embrace the demands of today's player, understanding and anticipating their needs, and extend a warm welcome to members of our ever growing family of drummers.

### A bright future

With a global network of dealers stocking Premier products, drummers around the world have greater access than ever to these great instruments. To locate your nearest dealer visit the official Premier website at [www.premier-percussion.com](http://www.premier-percussion.com).

The website includes all of the information you could wish for on Premier – products, specifications, spare parts, artists, news and events.

Get closer to Premier by joining thousands of other fans on Premier's social media channels. You can find Premier on Facebook, Twitter, Instagram and YouTube, just search for @PremierDrumCo. Interact directly by liking posts, sharing comments or posting your own images - be sure to tag your photos with #PremierDrums. Alternatively you can email Premier: [info@premier-percussion.com](mailto:info@premier-percussion.com)

### Spare parts

Premier's ongoing commitment to worldwide customer service has led to an innovative spare parts solution through [www.premier-percussion.com](http://www.premier-percussion.com).

Every product page within the website features a 'Spare Parts tab'. Within this every spare part is listed in the form of a clear line drawing. Clicking on the chosen spare part presents detailed information including stock code and quantity per pack.

All spare parts are readily available and can be ordered via Premier's international distributor and dealer network ensuring that your Premier product can be serviced and maintained for years to come.

## Features

- Choice of three shell options:
  - North American maple (7-ply)
  - Birch (7-ply)
  - Gen-X (2-ply birch on the outside and 5-ply maple on the inside)
- 5.7mm un-supported shells
- 3mm undersized shell diameter (toms and floor toms)
- Internally lacquered shell
- Diamond Chrome lugs
- Flush-fit ISO mount with integral memory lock design
- 2.3mm triple-flange steel hoops
- Nyloc lug insert prevents detuning
- Drilled or undrilled option for bass drum
- Die-cast claw hook featuring protective rubber liner
- Over 40 stunning gloss lacquer finishes
- Premier pewter badge
- Drumheads by Remo

The Elite Series represents the very essence of Premier's musical heritage, spanning 90 years of success as the world's leading brand of drum and percussion manufacturers.

Epitomising the much sought after and legendary sound

that Premier instruments are renowned for, the Elite Series are the most dynamic range of drums available and have been embraced by many of modern music's leading and inspiring drummers including Ged Lynch (Peter Gabriel), Chris Sharrock (Noel Gallagher's High Flying Birds), Cassell The Beatmaker (The Streets), Colin Jones (Circa Waves), Joe

Lazarus (Inheaven) and Gareth Grover (Frank Carter and the Rattlesnakes).

The secret behind the great sound lies within the craftsmanship. Elite Series is available with a choice of three 5.7mm 7-ply un-supported wood shells – North American maple, birch or our acclaimed Gen-X concept offering a

carefully balanced mix of 2-ply birch and 5-ply maple.

Each tom and floor tom shell is undersized by 3mm allowing the head to seat flatter over the bearing edge extending the resultant tone and sustain. Standard fitting of Remo heads further enhance the timbre.

EL20-05

EL22-44

EL22-49

Elite Studio is the latest edition to the Elite range of drums. Designed in England, Elite Studio has been stripped back to its basics by focusing on the shell design, inspired by our original blended shell - the Gen-X.

Incorporating a little touch

of classic Premier with beech reinforcement rings, the unique shell design means every drum is tailored to fit its ultimate tonal range.

The result is a brand new range with a different palette of colourful tones for new sounds, a very versatile drum set which is great in the studio or any live situation.

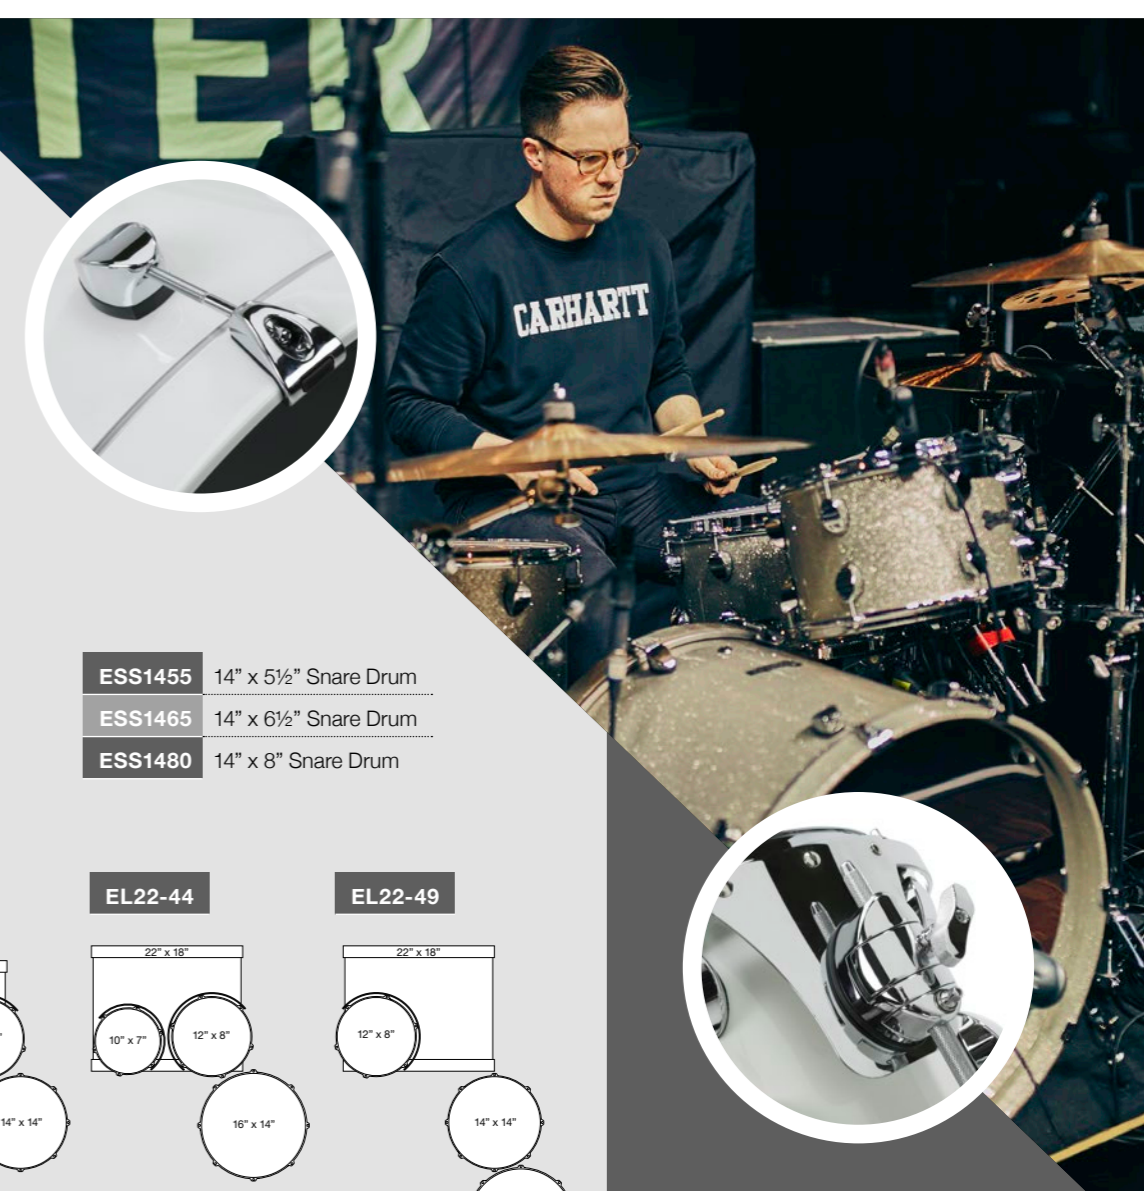

With every drum in your kit having a different tonal characteristic to the other, the Elite Studio focuses around a different plywood set-up to give the shell its maximum tonal range. Each shell consists of 6-ply with beech reinforcement rings: rack toms (4-ply birch / 2-ply maple) are higher pitched with clean tones whilst floor, bass and snare drums (2-ply maple / 4-ply birch) have a mid-to-low pitch with warmer tones. Each shell is 3mm undersize allowing the skin to seat better on the bearing edge.

An old classic for Premier, the beech support ring is made utilising

modern building techniques allowing for solid, stable shells that will not go out of round.

## Features

- Designed in England
- Maple/birch hybrid shell (6-ply)
- 4.2mm thin shell with 4.8mm beech reinforcement rings (4-ply)
- 3mm undersize shell diameter (toms and floor toms)

- Premier 'P' badge
- Drumheads by Remo

The shell finish is impeccable with a choice of stunning sparkle lacquers, high gloss lacquers and sparkle fade lacquers.

remain undrilled for maximum tonal resonance and low-end frequencies.

All tom shells are fitted with an ISO mount in Diamond Chrome whilst the bass drums

With the now iconic and distinctive lug design, finished in Diamond Chrome, the Genista is a legend within its own time.

The Genista Series remains one of Premier's most successful drum sets of all time.

Genista is the first choice for aspiring and professional drummers alike whilst remaining classic and distinctive in its sound and design but with more options available than ever before.

Genista shells are available as either 100% American maple or 100% American birch.

The shells are 5.6mm, 7-ply thick and like all professional Premier drums, the toms and floor toms are 3mm undersized for easier, more-positive tuning and clearer sound quality.

XPK Exclusive is packed with a host of features and an outstanding sound performance to offer incredible value for money.

XPK Exclusive provides drummers with a quality drum set that is the ideal balance

of performance and style. With 100% birch shells, these kits sound bright with great attack straight out of the box and are perfect for any scenario - from the practice room, to the recording studio, to the stage.

Featuring low-mass lugs and an ISO mounting system, both of which are

designed to increase the sustain of the birch shell, every fine detail has been considered including die-cast claw hooks with protective rubber plinths so that your bass drum hoop will never be marked.

Available in a choice of stunning satin stains, XPK Exclusive is recognisable with its black

hardware providing a distinctive look.

XPK Exclusive snare drums offer a range of features that are associated with more expensive drums. The 100% birch shell delivers a loud tone whilst the 1.5mm triple-flange steel hoops add further sustain to enhance the tone of the drum.

(Massive Attack), Olly Betts (The Duke Spirit) and Joe Lazarus (Inheaven).

Our steel shell snare drum delivers a great tone with plenty of attack and projection within a wide tuning range. It features vintage-style tube lugs, 2.3mm triple-flange steel hoops and a Dunnett smooth action

snare strainer whilst the shell is finished in a polished chrome for a classic, yet distinctive look.

Beatmaker snare drums are also available with a natural maple shell, for those who prefer the warmth of a wooden instrument - ideal as a main or second snare.

### Features

- Hand hammered brass, steel and natural maple shell options
- Vintage-style tube lugs
- 2.3mm triple-flange steel hoops
- Dunnett smooth-action snare strainer
- Black chrome (hammered brass shells) or polished chrome (steel shells) finish

# 6000 Series

## Hardware and Accessories

Premier®

The choice of professional drummers, 6000 Series hardware is Premier's most advanced offering. A superlative collection of hard-working, adjustable and highly functional hardware with progressive, contemporary designs, extreme functionality and a comprehensive selection of stands, pedals and thrones for the active drummer.

All 6000 Series hardware is double braced and

feature heavy-duty memory locks to ensure ease of set-up and robustness night after night. This range is the choice of many of Premier's international artists because these stands live up to the test of gigging night after night and have stood the test of many a world tour.

Unique features within the range include a snare drum with a universal ball-joint cradle tilter ensuring the most accurate snare

position. All cymbal stands include an infinite position cymbal tilter again for precise cymbal placement whilst the cymbal boom stand has the innovative disappearing boom allowing itself to convert to a straight stand if required.

The 6000 Series pedals are dual chain drive and feature a dual sided beater, adjustable cam, toe stop and base plate, a feature also included on the hi-hat stand.

## Features

- Double braced legs
- Flush base leg system
- Heavy-duty memory lock
- Heavy-duty feet
- Diamond Chrome finish
- Hardware pack available (5861)

# 4000 and 2000 Series

## Hardware and Accessories

**Premier**<sup>®</sup>

One of the best ranges of professional stands available today, the 4000 Series has been specially designed to give you more stability, easier set-up and better portability.

The 4000 Series has strong double braced legs and comprehensive adjustments throughout for height, angle and spread.

Unique features of the range include stepped

tilters on the cymbal and snare stands whilst the boom features a disappearing action.

The hi-hat stand includes an infinite tension adjuster whilst the selection of pedals all include dual chain drives, dual sided beaters, adjustable cams and grip spurs. The 4000 Series of pedals also include deluxe models that include beater balance weights, a base plate and velcro grip for extra reassurance.

### Features

- Double braced legs
- Flush base leg system
- Dual position memory lock
- Satin chrome ferrule
- Hardware pack available (5889)

The 2000 Series is designed to save weight, room and cost, and yet be strong and versatile. Often the preferred choice of jazz musicians or gigging drummers looking to travel lightly, the 2000 Series is the perfect accompaniment to your Premier drum set.

The weight saving of the single braced design is well worth considering. Functionally the range have the majority of the features of the

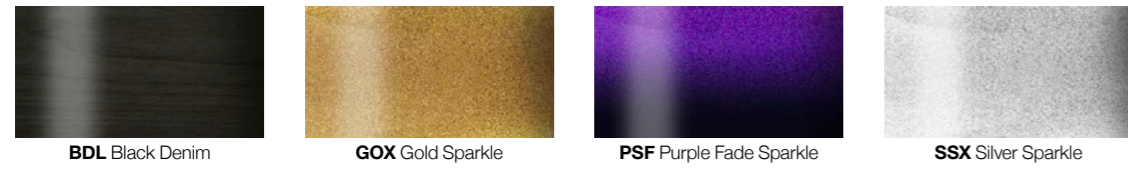

4000 Series, and that's most of the features you're ever likely to need.

Featuring the same stepped cradle tilter and disappearing boom as the 4000 Series range, the only real difference is the single chain drive pedal.

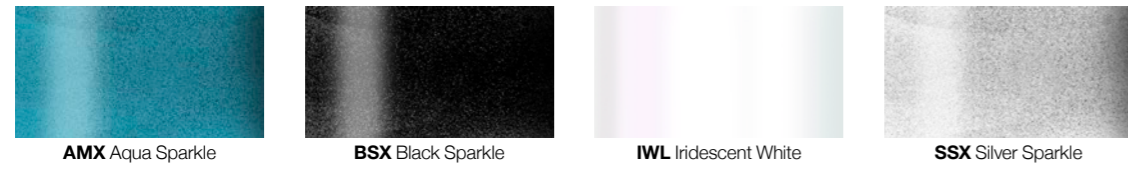

### Features

- Single braced legs
- Flush base leg system
- Dual position memory lock
- Satin chrome ferrule
- Hardware pack available (5847)
