# KNOW-HOW MAKES THE DIFFERENCE

1

2

3

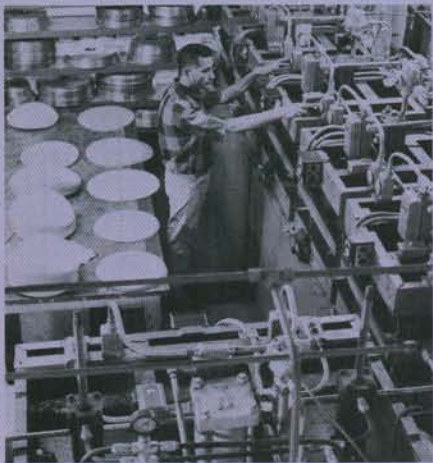

More than a decade ago Remo, Inc. introduced the first successful plastic drum head — and transformed the entire drum industry. Today more Remo drum heads are sold as original equipment and as replacements than any other brand by far. And today, Remo percussion products are the standard of quality around the world... the choice of leading percussionists, teachers and students alike.

Behind this unique acceptance is the experience and know-how of a Company dedicated wholly to the continued improvement of percussion products. Every product is developed and produced under the personal supervision of Remo Belli, nationally respected percussionist and teacher. Each incorporates the careful design and consistent high quality which have built the Remo reputation.

- 1, 2 Continuous research into physical and acoustic properties of materials results in product improvements and innovations.  
 3 Remo Belli, president, directs development and manufacturing of all Remo products.  
 4, 5 Automated production techniques assure consistent sound quality and performance of Remo drum heads.

# REMO®

The choice of leading  
percussion teachers  
and performers  
the world over

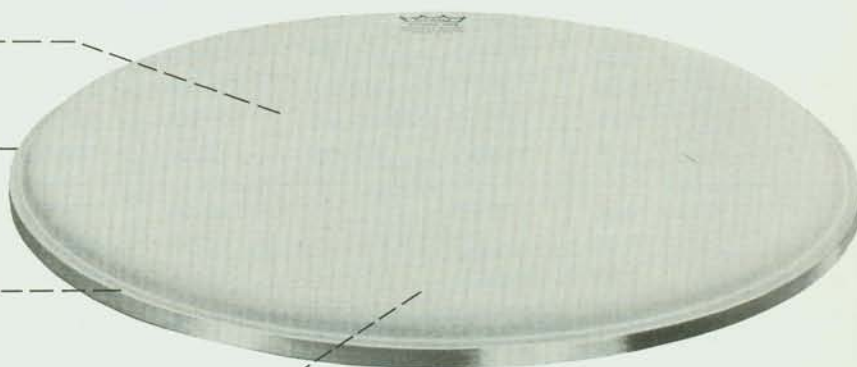

It's little wonder that drummers the world over mention Weather King drum heads when speaking of good drum sound and good drum feel. Remo pioneered the development of professional-quality plastic drum heads, and has continued to improve the art for more than a decade. Now you can select from the widest range of sizes and types in Remo history. Each Weather King head has been created under controlled conditions to assure highest quality.

FITTING OF COUNTERHOOP AND  
EVEN TENSIONING

LONGER LASTING SURFACE OFFERS  
CRISP BRUSH AND STICK RESPONSE

## Available in five series to fit all requirements

### **DIPLOMAT**

A light weight supersensitive drum head designed for the concert drummer who is called on to play delicate passages and where an extra sensitive tone is required.

### **DIPLOMAT M5**

A very thin batter head specially developed for the sensitive orchestral performer. Sound is very crisp and dry. This head will not take a lot of abuse and is recommended only to very fine performers for delicate work. When ordering specify Diplomat M5.

### **AMBASSADOR**

Created to meet the requirements of the professional dance band, combo, or orchestra drummer. It has been found satisfactory at the junior high and high school concert band levels. Its tonal qualities and all around performance make it the ideal general purpose drum head.

### **EMPEROR**

A heavy duty drum head designed to absorb considerable impact over long periods of time with little or no sacrifice in tonal excellence. Highly recom-

mended for drum and bugle corps and all marching bands.

### **DRUM CORPS**

Heavy duty Emperor-grade heads, prepared with spray coating applied on underside of batter and bass drum heads. This feature makes heads easier to clean, adding points to score without altering crisp sound necessary for winning competitions.

Remo Weather King drum heads are furnished in a complete range of sizes. All series except Drum Corps are furnished with white spray coating on the outer surface of batter and bass drum heads; however, any head may be specially ordered with clear plastic or with coating on underside at no added cost.

Please order all heads by Catalog Number as listed below.

### Tympani Heads

Each Remo Weather King tympani head is formed using the very best selected DuPont Mylar film. Great care is exercised to create an even collar and flat hoop, assuring maximum tonal production over the entire range of the instrument. Remo stocks tympani heads in nine sizes, and can furnish other sizes on special order. NOTE: It is important to specify the manufacturer of tympani when ordering heads, due to the difference in measurements used. When ordering special or odd sizes, measure *inside diameter* of counter hoop into which the head must fit.

### Banjo Heads

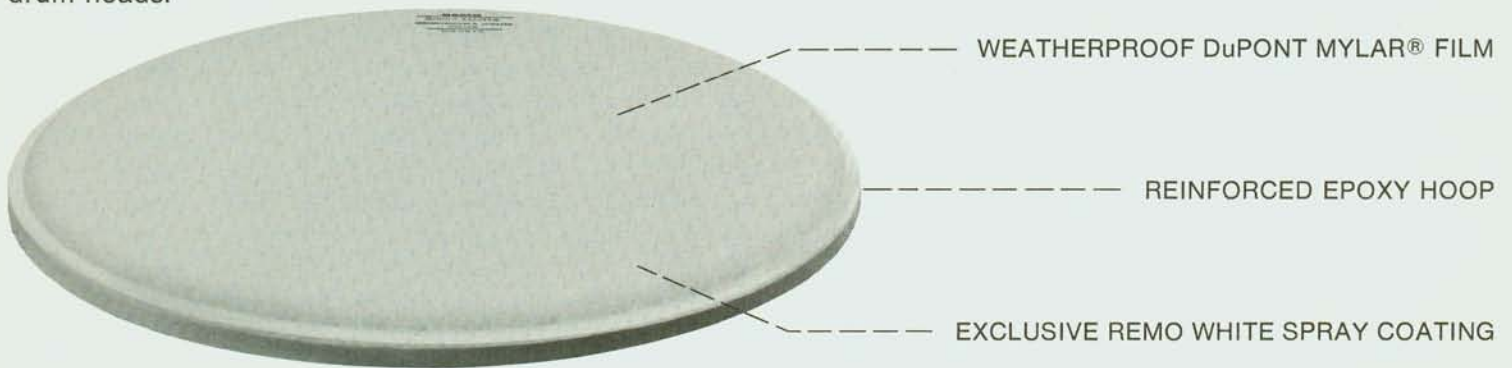

Remo Weather King banjo heads have become the choice of thousands of players. They are completely insensitive to varying climatic conditions, and require only occasional tensioning to maintain the desired Banjo sound. Furnished in 35 sizes from 10" to 12 1/8" diameter. Choice of high collar, medium collar or low collar in many sizes.

NOTE: Unless otherwise specified, banjo heads are furnished with white spray coating on top surface. However, they may be specially ordered with clear plastic or underside coating at no added cost.

Remo Sound Master drum heads were designed with functional economy in mind. Constructed of strong, weatherproof plastic with reinforced epoxy hoops, they give fine-sounding performance at surprising low cost. Sound Master quality is available in both Field and Orchestra grades. The Field batter-side and snare-side heads are of extra-strong heavy duty plastic, and are for use only where continued heavy impact is necessary. They are recommended for drum-and-bugle-corps and all marching bands. Sound Master Orchestra drum heads were created to meet the requirements of the dance band, combo and orchestra drummers. Their tonal qualities and all around performance make them ideal multi-purpose drum heads.

**VERSATILIC DRUM  
PRACTICE SET**

**REMO<sup>®</sup>**

Remo, Inc. / 12804 Raymer St., No. Hollywood, Calif. 91605

The Versatilic drum practice set offers the student or professional drummer the opportunity to perfect style and technique with a minimum sound level. Ideal for home, teaching studios, band rooms, class rooms, etc. The Versatilic gives you a true 'drum feel' while practicing. Ruggedly built and fully adjustable to suit individual requirements. Endorsed by Louis Bellson, Irv Cottler and other great percussionists.

An entirely different practice set... professionally designed to simulate real drum set conditions without the extreme percussive sounds of an actual drum set

**New twin tom tom Practice Set**

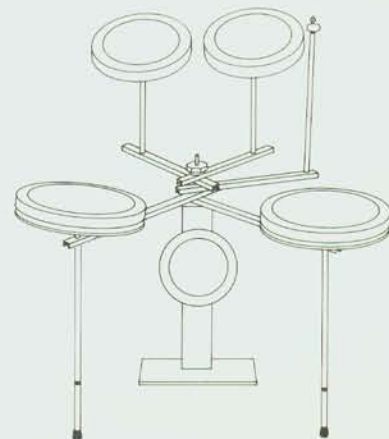

Identical to RPS10 except it includes one additional RT8 8-inch Pad for twin tom tom set-up. Complete with all extension arms and support rods.

**CAT. NO. RPS10T 78.00**

Standard Versatilic Drum Practice Set includes:

- One RT6 6-inch Pad (bass drum)
- One RT8 8-inch Pad (tom tom)
- Two RT10 Pads (snare and floor tom tom)
- Center support assembly and extension arms as shown.

**CAT. NO. RPS10 65.00**

A new percussion instrument...  
the tuneable drum  
with a full-octave range...  
available in three sizes

105.50

**REPLACEMENT HEADS.**    Cat. No. RR6H — 6" Dia. 1.40  
   Cat. No. RR8H — 8" Dia. 2.00  
   Cat. No. RR10H—10" Dia. 2.50

The Roto-Tom is a unique pitched drum concept which can be tuned over a full-octave range by rotating it on a threaded shaft assembly. Designed by Mr. Al Payson of the Chicago Symphony. Roto-Toms are well-suited for use as tuned tom-toms in percussion ensembles. They also can provide a new and contrasting color when used with other percussion instruments. The wide tonal effect offers many uses in commercial recording, soundtracks and theatrical music.

Roto-Toms also have application in elementary rhythm instruction as a hand drum or stick drum; in ear training programs by providing a ready means of matching tones; and in teaching the elementary techniques of playing the tympani.

Individual Roto-Toms or sets of four (providing two-octave range) can be furnished with table or floor stands. Special units with other configurations also may be provided on special order.

**PRESSED WOOD BASE**

For the very first time, Remo offers an inexpensive and professional-looking means of providing identification on your bass drum heads.

We can supply any of the twenty emblems shown at left, along with lettering on any of our five Sparklone colors or on our Weather King white bass drum heads.

All emblems appear in black and white with special show-through areas where Sparklone colors can be seen most effectively. Lettering can be in your school colors. Three-inch "Gothic" letters only are available. All painting is done by silk-screen process on the underside of the head to assure a neat, professional job.

**Pricing Schedule**

Prices below are for emblems and lettering only. *Drum heads are additional.* Price includes one emblem and up to twenty letters per head.

Quantity	1	2	3	4	5 & over
Price, ea.	22.00	17.60	15.40	13.20	11.00

Emblem only without lettering, each .....12.00  
Additional letters ..... .90

Due to the special film required, all Weather King heads with emblems or lettering are subject to Sparklone prices.

**Custom Painting Service**

If you desire special artwork or lettering on your bass drum or batter heads, Remo now offers a complete Custom Painting Service. You may furnish complete artwork or detailed specifications, or we can assist in the design of emblems and lettering. All Custom Painting is furnished on a quotation basis. Minimum order is \$20.00, plus the cost of drum heads. A quantity discount is offered when more than one head is ordered. When requesting quotations, supply complete sketch showing size and placement of emblem; size and style of lettering; and complete color description with color swatches.

# REMO<sup>®</sup>

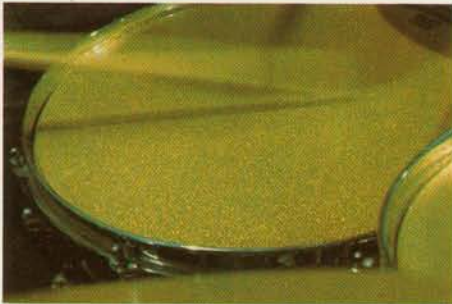

## SPARKLTONE<sup>®</sup> DRUM HEADS

Improved! Remo's bright new look in drum heads is better than ever. Improved bonding of color flakes has produced a thinner, more flexible batter head with a more 'open' drum sound. The sparkle is permanently fused—can't chip or shake off. Improved strength, too. Choose from

a complete selection of sizes and types in five glittering, sparkle colors.

*Reinforced bass drum heads available.* Now all SparklTone bass drum heads can be furnished with a specially-laminated reinforcement for added strength and durability. Ideal for drum corps, marching bands and rock band use.
