*All kits are available in all colours shown

Staccato-the progressive drum company

Staccato Drums are hand made by a skilled workforce to the most exacting standards required by contemporary drummers.

Their multi-layered fibre-glass construction, reinforced at tension points, makes them virtually indestructable.

Colour is impregnated right into the drum shell so it cannot scratch or chip off and shallow marks can easily be polished out.

Staccato Drums revolutionary shape marks a tremendous leap forward in the concept of drum design. Based on the 'Kadency' principle, it gives immense volume when required plus amazing clarity of sound. A must for the modern drummer and suitable for both stage and studio use.

Although the drum sound is excellent with any head, Staccato Drums are factory fitted with our own brand specially manufactured by Remo in the U.S.A.

Stands and Accessories

All kits are available with or without Snare Drum, Stands and Pedals. A standard specification kit includes a double Tom-tom mounting on the Bass Drum, double T/T floor stands, Bass Drum spurs and floor Tom-tom legs.

The deluxe specification includes a 14" x 15" steel, ten lug Snare Drum, two heavy duty cymbal stands, Hi-Hat pedal, Bass Drum pedal, Snare Drum stand. All stands have fitted nylon non-slip bushes and double braced legs.

Tom-tom holders are the shell mounted type, fully adjustable for all playing angles but without a protruding Tom-tom arm inside the shell to affect sound projection.

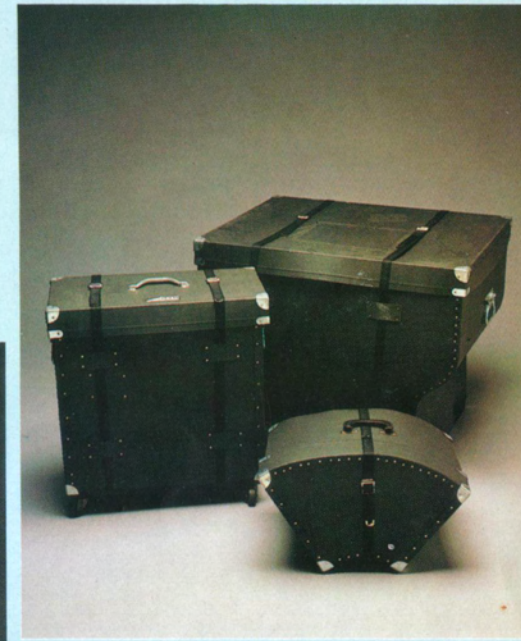

STACCATO RANGE SIZES

Concert Toms	6", 8", 10", 12", 13", 14".
Floor Tom-tom	16".
