Prices inclusive of Purchase Tax.

This unique drum combines a Tom-Tom of almost infinite range with a modern style Bass Drum. The equivalent of 13 Tom-Toms, each tuned a semi-tone apart, also the same range of Tympani notes are obtainable merely by pressure on the patented foot pedal, which stays in position to hold any note. The ideal medium for the interpretation of the Latin-American idiom. The bottom head is operated as a Bass Drum. The addition of a Side Drum makes this a complete and compact outfit with scope far beyond the normal. A scientifically designed and constructed instrument.

CARLTON "KING" Side Drums

1003

SNARE FITTINGS.

Parallel action for unimpeded snare response. Instantaneous "on-off" device. Wire on silk, or all steel snares as desired.

INTERNAL TONE CONTROL.

RUST-PROOF METAL FLESH HOOPS.

COUNTER HOOPS.

Re-inforced pattern, die-cast, double flanged, floating head principle, permitting the heads to ride free of the side of the shell.

NARROW PATTERN "BOP" MODEL

1003 14" x 5", wood shell. Made especially to give the modern "crisp" tone. Incredibly responsive with ample volume £25 11 9

REGULAR MODEL

1001 14" x 6½" wood or metal shell. A superb drum designed for all types of orchestral work £25 11 9

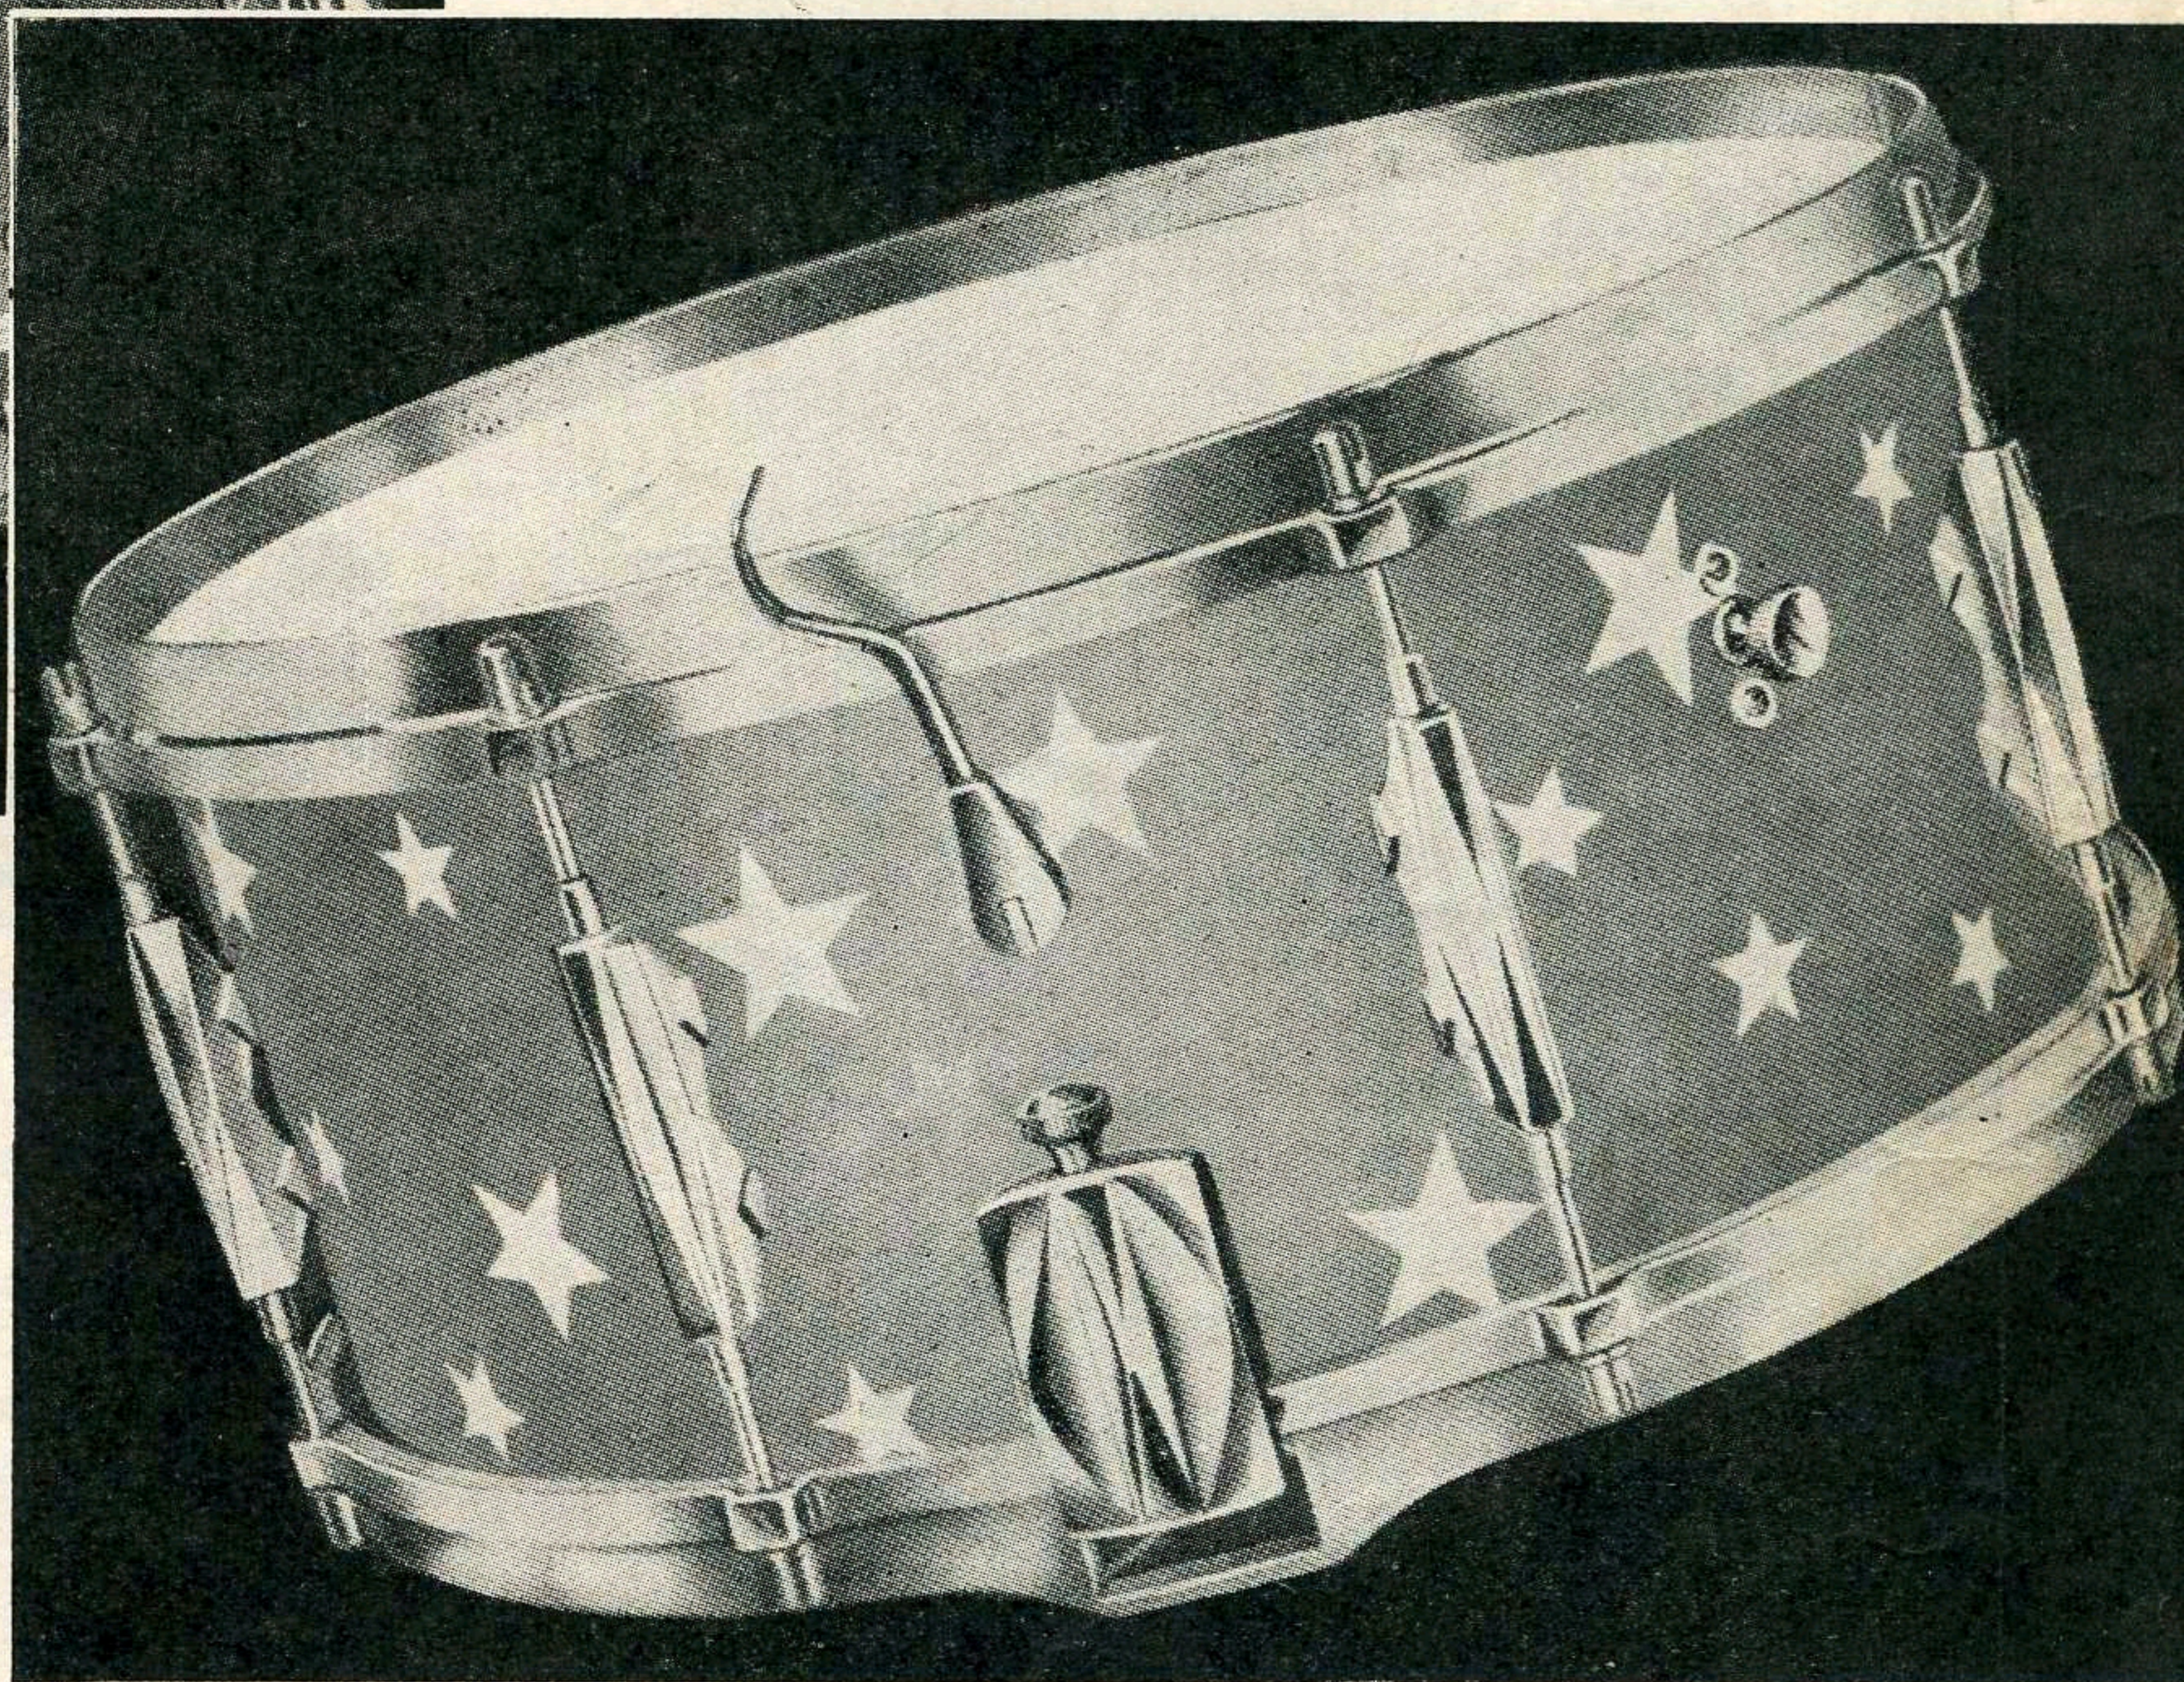

"DEEP ELEVEN" MODEL

1006 14" x 10" metal shell. Specially built for extra power and depth of tone. Ideal for symphony, theatre and concert work. A magnificent side drum which a flick of the snare lever converts into an extra Tom-Tom £25 11 9

comfort with the**

NEW

CARLTON 'TILTER'

HI-HAT

CYMBAL PEDAL

ANGLE
AND HEIGHT
ADJUSTABLE

No stumbling between side drum and Hi-Hats. The angle and height of the cymbals is adjustable to suit the playing position most advantageous to you and also permits a natural straight line travel of the sticks from side drum to Hi-Hats.

The mechanism of the pedal and cymbal tilter is smoother, lighter, faster and more flexible than anything you have ever experienced. Latest pattern, compact, collapsible base, self-locking feet with exclusive "non-creep" floor grips. Set up or folded away in a flash. Steel parts are chromium-plated and aluminium parts are brightly burnished.

MAKERS OF CARLTON DRUMS

THE CARLTON CRACKER 3" SNARE DRUM

The only Snare Drum with 3" shell which has

PARALLEL ACTION SNARES

giving perfect response from every spot on the vellum.

Absolutely every modern development in drumming technique has been incorporated into this superb instrument.

The complete absence of obstructions such as any fittings or supports inside the shell ensures clarity of tone combined with a powerful volume of sound never previously obtainable.

"Floating head" counter-hoops, die-cast for strength and appearance, specially designed counterbalanced tension brackets enable each of the carefully selected vellums to be independently tuned.

Robustly constructed, the complete drum is much lighter than the normal snare drum.

THE LATEST AND FINEST SNARE DRUM EVER CREATED

With these **EXCLUSIVE CARLTON** *Features*

- **PARALLEL ACTION SNARES**
Essential for full snare response
- **"CLEAN FINISH" INSIDE SHELL**
Positively no internal fittings or supports—ensuring terrific power and clarity of tone.
- **FULLY FLOATING SNARES**
Spring loaded to ensure perfect seating of the snares on the vellum.
- **NEW DESIGN Counterbalanced TENSION FITTINGS**
to give full head adjustment.
- **20 STRAND "VIBRANT" SNARES**
Finest coiled wire.
- **FLOATING HEAD COUNTER HOOPS**
with cushion rim to protect sticks. Solid tension bolt lugs to protect the vellums.
- **SUPERB FINISHES**
No extra cost for wide range of plastic shell finishes.

Available in 6 scintillating plastic bonded finishes with mirror chrome metal fittings at this amazingly attractive price as quoted.
