THE "ARISTOCRAT"

A great number of top ranking professionals declare the 5 x 4 size drum to be the best for those who do all-around work with different groups. The "ARISTOCRAT" 5 x 14 has both delicacy and volume and will withstand hard usage on the road. It is a "tailor-made" instrument of mechanical efficiency and modern styling . . . A wonderful easy-playing drum, with sounds that will please the perfectionist.

THE CASINO "ARISTOCRAT"

The neatest and best looking "narrow" drum ever made . . . no staggered rods. The very "tops" for jobbing and combo work, and the very "end" in snappy sounds and sturdiness. Made with the same care as a Rolls Royce and will take all you can give it. The Double Edge-Double Flange counter hoops are the strongest made and they greatly lessen stick damage when playing rim shots.

262-P	4½x14 Choice of Pearls.....	\$84.50

THE BAND "ARISTOCRAT"

This is a real "drummer's drum," with colorful, rich and penetrating sounds that make it the very "tops" for large concert bands and orchestras. It is the correct size for producing great volume; yet it is so sensitive that it can be played down to a "whisper." Like all "ARISTOCRATS," it is very carefully made in every part—even to finishing the inside of the shell.

"ARISTOCRAT" BASS DRUMS

Drummers and leaders in both the school and professional fields must have the particular "sound style" that blends in with the musical character of their special organization. Jobbing drummers often have to alter the sounds for different groups. We are, therefore, building our bass drums to withstand the ally bonded shells, with reinforcing hoops. The steel double claw hooks are of thicker gauge and have a wider bearing surface than those on most drums. The finishes are top grade, including hand-rubbed lacquers. These are indeed rugged, beautiful drums that can be adjusted to sounds required on any job.

		Lacquer	Pearl

BASS DRUM RACK

Over 1,000 high school, college and professional bass drummers are now using this—the top prize winner of all bass drum racks. Many have voluntarily stated that it is the strongest and best looking rack they have ever seen. Made of 1" diameter steel tubing instead of the usual 3/4" size. All chrome plated. It also opens wider and will accommodate the largest drums.

1200 Chrome\$19.50

SOLID WOOD BASS DRUM BEATERS

Solid rock maple. Natural lacquer finish. Usually used in pairs for the loud rudimental beats on parade. 12 1/2" Overall.

854 VINE STREET
HOLLYWOOD 36, L.F.
HO. 9-6285

HEAVY DUTY PRACTICE PAD STAND

A sturdy folding steel stand with wide-spread legs and angular adjustment of pad. Height adjusting tube extends for standing position.

1160 Stand Only
(Nickel Only) \$ 7.50

1112 Stand and Professional 1210 Pad . . . 12.00

1113 Stand and Heavy Duty 1212 . . . 12.00

1114 Stand and Junior 1220 Pad 9.50

Stands are in Nickel Only.

LIGHT WEIGHT PRACTICE PAD STAND

Pads mounted on stands are always "inviting" to all drummers. They encourage hours of extra practice. The light weight stand is a good beginner's model at an exceptionally low price.

1161 Light Weight Stand Only.
(Nickel Only) . . . \$5.00

1222 Stand and Junior 1220 Pad \$7.00
Does not extend to standing position.

The Light Weight Stand is not practical for the heavier model pads.

**"CAMCO" HEAVY DUTY
DRUM STAND**

For all drummers who desire a heavier model than the folding type. Adjusts to Extra Height for standing position.

530 \$13.50

**"CAMCO" FLUSH BASE
DRUM STAND**

Folding legs open flush to floor. Ratchet angle adjustment. Extendable for standing position. A high quality stand.

600 Chrome Only \$12.75

**"MARVEL" FLUSH BASE
DRUM STAND**

The choice of many top name professionals . . . Sturdy. Rubber covered arms stop scratching.

1716-N Nickel \$ 9.50
1716-C Chrome 10.50

**"WALBERG" STANDARD
DRUM STAND**

Good all-around jobbing stand of medium weight. Designed for the lighter drums up to 6½" shell depth. . . Has angle and height adjustment. A fine low-priced stand.

525 Nickel Only \$6.95

CAMCO THRONE

Chrome Only. A steel screw through steel collar eliminates all possibilities of slipping.

Back rest \$2.25 extra.

9000 \$18.00

WALBERG THRONE

An old reliable rigid model — Padded seat. Back rest \$2.25 extra.

865-C Chrome ... \$19.75

865-N Nickel ... \$16.75

CAMCO PEDAL PRACTICE PAD

The importance of "foot work" in modern drumming equals that of stick technique. This practical pedal practice pad is the most advanced design made. It is well made of aluminum and steel parts, with a rubber disc beating surface. Takes up very little space. It will definitely improve "the beat."

1000 \$7.50

**THE FAMOUS "CAMCO"
DELUXE HI-HAT**

All of the desired qualities in Hi-Hat mechanism and playing ease are positively to be found in this exceptional model. The drummer can be so sure of "no bugs" that he can devote his full attention to cymbal sounds. Floor flush steel legs. Will not creep. Height adjusting.

800 Chrome Only
\$20.00

**CAMCO DELUXE
CYMBAL STAND**

Tilter included. Modern and very practical cymbal stand. Light weight—Rigid, too. Has wide-spread folding steel legs. Extends to 48".

700 Chrome
Only — \$10.75

**WALBERG
CYMBAL
STAND**

Tilter included. Floor-flush folding legs—pressed steel and telescope tubing used in the construction of these stands.

AVEDIS ZILDJIAN CYMBALS

No other make of cymbal in the world has the wide endorsement of the Avedis Zildjian brand. They have that "something" in blare, brilliance and rich sounds that has never been equalled. That, of course, is the reason the great majority of professional drummers, as well as concert band and symphony orchestra conductors, choose them above all others both in this country and abroad. Avedis Zildjian and his sons—Bob and Armand—personally mix the secret alloy in a closely-guarded laboratory, just as it was formulated in 1623. After casting they are fired, hammered, shaped and tempered many times under high temperatures. All of this (and much more) plus great skill, assures the resonance and strength for which they are world-famous.

THE CORRECT WAY TO TIE A CYMBAL KNOT

Lay the four leather ends flat in the cymbal cup

Fold No. 1 to the right and over No. 2

Fold No. 2 downward and over No. 1

Fold No. 3 to the left and over No. 2

Fold No. 4 upward over No. 3 and under No. 1. Pull ends tight.

CYMBAL STRAPS AND PADS

These cymbal straps and pads are cut with "a little extra" in length, width, and thickness—a little larger than most models. This gives longer wear and is a great assist in overcoming fatigue and the tempo problem. Made of top grain "pearl elk" leather. Note that we supply knot washers.

CAMCO DELUXE PEDAL

**"THE PEDAL OF
PEERLESS PERFORMANCE"**

The vast number of "Big Names" who are using the Camco Deluxe Pedal is definite proof that it has stood the test of time and fully meets the exacting demands of the Modern Drummer.

Its mechanical perfection plus rugged construction are two of the chief reasons for its popularity.

Simplicity of adjustments eliminates guess-work and permits the Drummer to arrive at the desired feel, balance and flow; and with just the right amount of resistance that suits him best . . . This assures smooth, easy and fast action at all tempos.

Positively frictionless and quiet.

Here is the pedal that does not divert the mind, allowing the Drummer to put more emphasis on stick technique.

5000 \$22.50
Ball Bearings

Polished aluminum and chromium-plated parts . . . equipped with solid felt beater ball unless otherwise specified . . . weighs only 3½ lbs. . . . folds easily and compactly without removing any parts whatever.

CAMCO STANDARD PEDAL

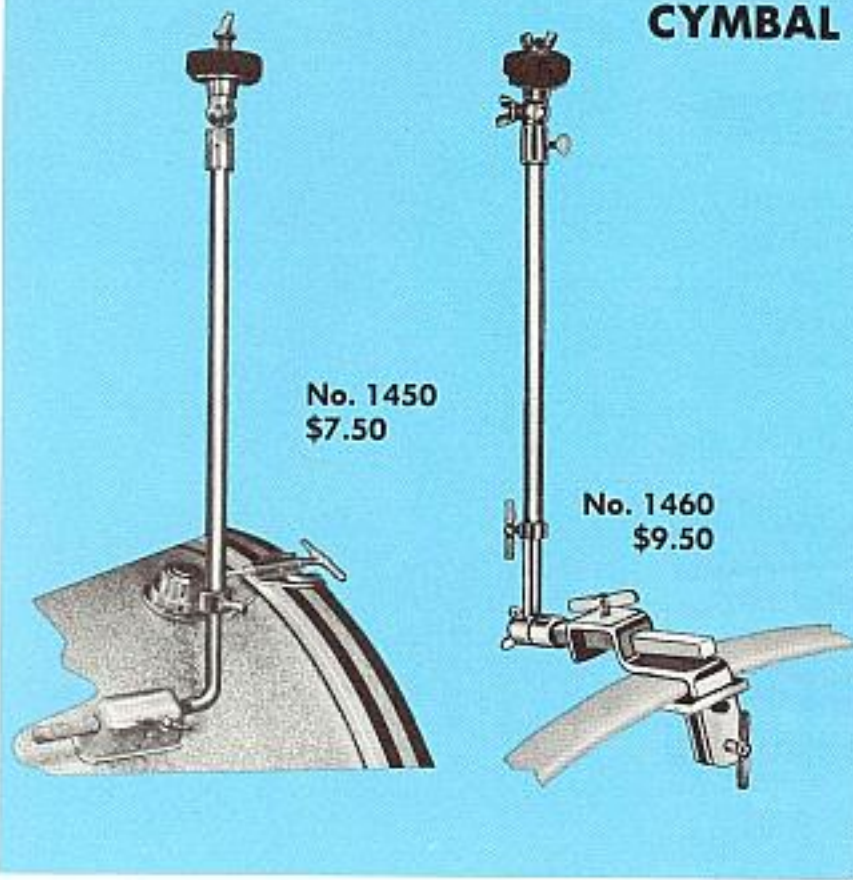

"Exceptional Efficiency in a Lower-Priced Model"

Polished aluminum and baked enamel parts . . . equipped with cork beater ball . . . weighs 3½ lbs. . . . folds compactly without removing any parts.

PURDUE BELL-LYRA MALLETS

New balance assures accurate aim—positively guaranteed unbreakable balls. The strongest mallets ever made. You can be sure that the balls will not break. Shafts are of 3/4" special alloy carbon magnesium steel made to our order. The hand grips are semi-hard ribbed rubber. These exclusive features provide a new feel and balance that means better control and therefore better playing technique. One of the most outstanding inventions ever presented in the percussion dept. They are slightly higher in cost because of better materials and workmanship, but they will outlast dozens of the old style models, therefore are much cheaper in the long run.

Originally presented by a member of the Purdue Engineering School and used with great success in the famous Purdue Symphonic Band—Al G. Wight, Conductor—in concert and rugged playing on the football field. Developed and made exclusively by Camco Drum Company by permission of Purdue Bands and available to all musical organizations.
