

FOR A NEW ...

**LOOK
AND
FEEL**

**Come Over
To My Pad**

DAUZZ
Designs®

has been making drum pads
for top artists since 1984
After years of testing we've
designed a pad with today's
most requested features.

The vast selection of
MIDI sound sources and
inexpensive MIDI to trigger
converters has opened
boundless possibilities to
electronic percussionists
everywhere.

Electronic drum systems
consist of two basic
components - the *Brain*
and the *Pads*.

So if you have the
Brain
we've got the
Pad!

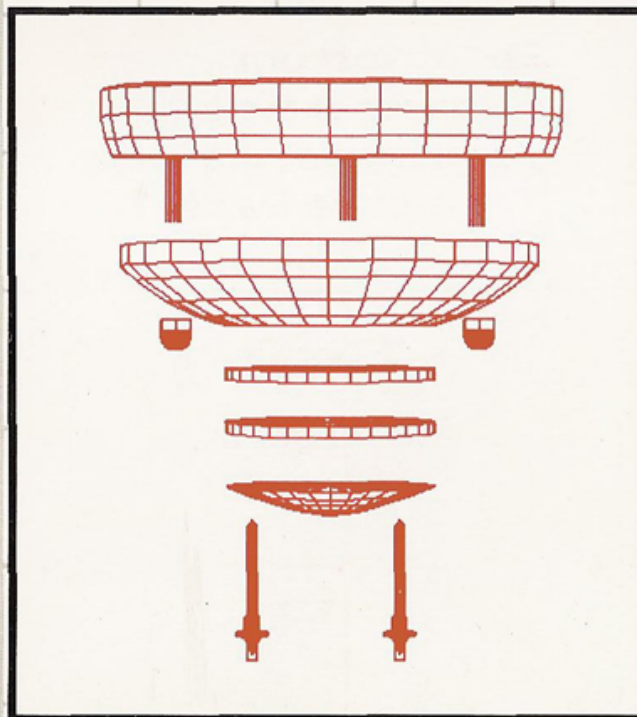

listened to the features studio and stage drummers wanted most.

And we deliver...

- 6" rubber pad
- Velocity sensitive
- Tension rod fastening
- Custom colors available
- Standard 1/4" input jack
- Crosstalk eliminator gaskets
- Rugged shock mounted system
- Fully adjustable dome-top clamp

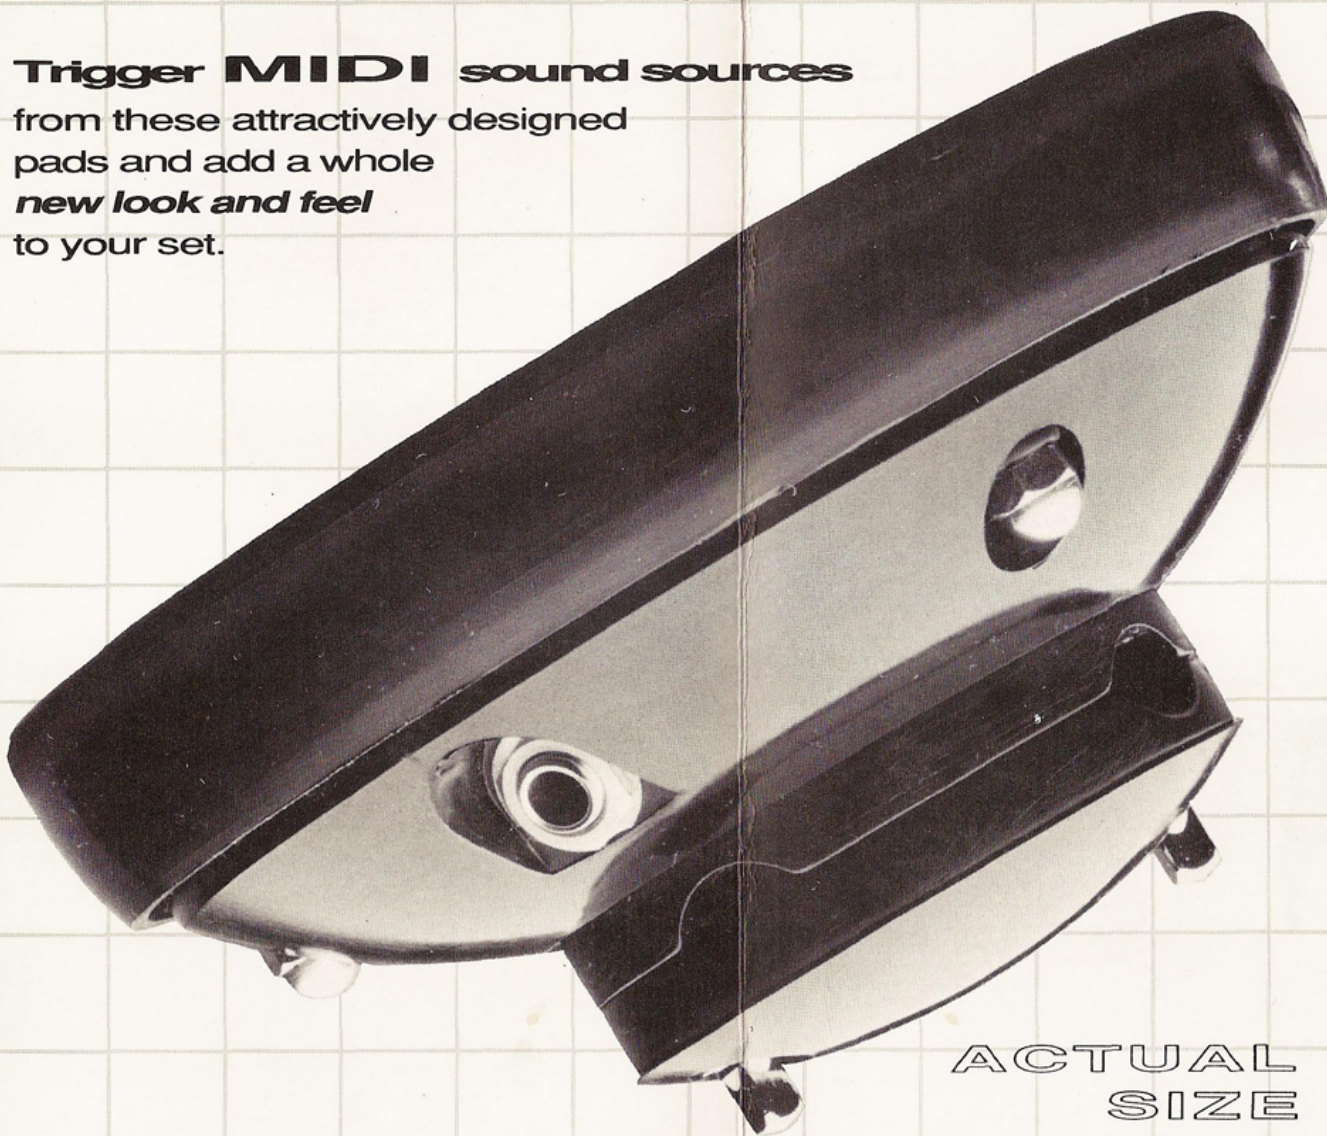

The **DAUZ DRUM PAD**

is the *ultimate tool* for your self expression.

Trigger MIDI sound sources

from these attractively designed pads and add a whole *new look and feel* to your set.
