

GRETSCH DRUMS

Standard of the World

SINCE 1883

SETTING THE STANDARD FOR

ANOTHER CENTURY OF MUSIC..

Serious drummers know what it means for a drum to carry the Gretsch name. They know Gretsch means a sound like no other in the drum world—a rich, warm, breathing sound that cuts through the clutter to move hearts and bodies. The Gretsch name says: Listen. This is what a real drum sounds like.

From smokey jazz clubs to arena rock shows...from big band sounds on crackling vinyl to progressive fusion on compact disc...from country to rockabilly to straight-ahead hard rock. For over a century, Gretsch drums have been found wherever the world's most talented drummers practice their art.

Why? Because that great Gretsch sound means a snare drum with a crisp, clear attack and a balance that can handle any musical style. It means a warm, vibrant tom sound that's always tuneable, never dull. It means a tight, aggressive bass drum that keeps the beat together and won't break down into a low-frequency rumble. No matter your style, it's a sound you can always sink your teeth into—that great Gretsch sound.

RETSC

COMPLETE DRUM KITS

A great Gretsch drum is made the way a great drummer is made-by hand, out of hard work and knowledge... out of sweat and love of the music. In 1883, Friedrich Gretsch knew that the best way to make a drum is by hand with the best materials available. Since then, every Gretsch tom, snare and bass drum has been a living blend of natural wood and heavy-gauge metal, hand-crafted in the USA with American parts. And that's the way Gretsch drums will always be made-in this century and into the next.

The heart of every Gretsch drum is the exclusive 6-ply, Gretsch maple shell, sanded and polished by hand to a high gloss finish. The inside of every shell features the famous "secret silver interior", one of many innovations the drums are known for. Every snare and tom is bound by die-cast hoops-another Gretsch innovation. These triple-chrome plated hoops never go out of round and give even tension over the entire batter head. That means a true, tuneable drum that really sings.

SNARE DRUMS

A drum kit is as good as its snare drum. And for over a century, Gretsch has made the most distinctive snare drums in the business—bar none. With a sound and a look uniquely its own, a Gretsch snare drum is a collector's item you can play for a lifetime.

Pick from two shells: one-piece brass or six-ply Gretsch maple. Die-cast hoops, developed and tooled by Gretsch, are standard on all models. Pick double lug or separate lug construction for your tuning needs. And every snare features Gretsch's own Lightning throw-off strainer.

MAPLE

G4157(WW)
5" x 14", six-ply Gretsch maple
8 lug
* This drum has sweet acoustics, responsive to the trickiest stick work.

BRASS

▲G4160
5" x 14", one-piece brass shell with chrome plate finish, 8 lug
* The clear and crisp sound of our traditional brass shell—a classic in the drum world.

G4165
5" x 14", one-piece brass shell with chrome plate finish, 10 lug
* The sharp definition of a brass shell with ten tensions for greater tunability.

DRUM HEADS, HARDWARE AND ACCESSORIES

Gretsch's exclusive "Perma-tone" drum heads are made especially for us by Remo. Snare drums come with a G5508P batter head and a G5568P on the bottom. Bass drums are fitted with ebony black heads, the front bearing the distinctive Gretsch logo. Toms have a clear pinstripe batter head and a clear ambassador head on the bottom.
