NOYES & NICOLAI

BOSTON
MASS.

E. J. Nokes

INTRODUCTORY

WITH 46 years' experience in practical Drum and Trap building we are convinced that there are enough Professional and Amateur Drummers who want "ONLY THE BEST" made Drums, Tympani, Bells, Chimes, Xylophones and Traps.

Our close contact with the Best Drummers and our constant experimenting has given us a complete knowledge of the requirements of the Professional and Amateur Drummers. We are both members of Local No. 9 A. F. of M. and the Boston Drummers' Club.

We have all the modern facilities with which to work, including patent machinery unknown to other Drum makers.

All material used by us is of the best that money can procure.

Our employes are workmen of the highest skill and our plant is second to none in the world, devoted exclusively to drums and drummers' accessories.

Most of the best professional Drummers use and endorse our drums and traps, because experience has proven the high quality of our goods, how exceptionally well they are made, and that our prices are most reasonable.

E. F. Nicolai

The steady increase in our business has been due almost entirely to the fact that Drummers who once trade with us have recommended us to their friends. We consider this growth, by professional endorsement, the healthiest and therefore the most enduring.

Our up-to-date repair shop will guarantee you the best work by the best workmen, at the lowest prices. As we make all our own Drum Shells, Drum furnishings, Bells, Xylophones, Tympani, and other articles from start to finish we can surely do your repairing as it should be done.

All of our products are guaranteed to be exactly as represented and are sold with the understanding that, if for any reason they do not prove entirely satisfactory, you may return them and we will refund your money.

Thanking our many friends who have helped to make us of some value to the American Drummer, and trusting that we shall have the opportunity to prove to all others the high quality of our goods.

We remain sincerely yours,

NOKES & NICOLAI

OUR DRUM CONSTRUCTION

Considerable experimenting has been done with all kinds of veneers, double, triple and five ply, for the manufacture of drum shells, and in fact, for violins, cellos, and other vibratory instruments. Although considerable time and expense might be saved in the manufacture, the instrument would prove a failure from a musical standpoint.

Veneers must be saturated with glue, which prevents them from seasoning. Every change of weather affects the glue.

Having thoroughly investigated all the veneered shells we have decided that with drums, as with violins, nothing gives as good, lasting satisfaction as the Solid Wood.

Therefore we shall continue to make all our wood Bass and Snare Drums of Solid Rock Maple. **NO VENEERS OF ANY KIND ARE USED.**

THE SNARE BED. Particular attention is given to the grading of the snare bed to insure instant response of the snares to the lightest tap of the stick.

THE DRUM RODS. Don't weigh your drum down and stop all that crisp, sharp tone and vibration by using too many or too heavy rods.

All our rods have proved to be the quickest acting and most durable. They are pronounced the strongest and lightest rod on the market.

Why? BECAUSE THEY ARE MADE OF THE FINEST STEEL. SELF ALIGNING, AND HIGHLY NICKEL PLATED.

KINDLY READ THE FOLLOWING INSTRUCTIONS

Postage stamps will be accepted for orders amounting to \$1.00 or less. We will gladly ship goods C. O. D., subject to five days' trial, when an amount sufficient to cover cost of transportation is sent with order, which amount will be deducted from the bill. By remitting the full amount you will save the cost of returning the money on the C. O. D. shipment, thereby reducing the cost of transportation.

We guarantee all our goods to be just as represented. If for any reason you are not entirely satisfied you may return them any time within ten days and we will cheerfully refund your money.

We reserve the right to change the prices in this catalogue, without notice, to meet decided fluctuations in the raw material market, but we will always give our customers the advantage of any decline.

Orders to be shipped by mail or parcel post should be accompanied by an amount sufficient to cover the cost of registration, which is only 10 cents, otherwise a safe delivery is not guaranteed.

SPECIAL NOTICE.

To avoid any possible misunderstanding or consequent delay, please order by number and specify Catalogue No. 6.

This catalogue cancels and supersedes all former editions and quotations.

The No-Nic All Metal Drum

Our All Metal Drum is the wonder of the age because it has been constructed on a systematic basis. The drum that will outwit all others for its extreme sensitiveness, snap, clearness and brilliancy, and at the same time with an unlimited volume of drum tone (and not tinny).

These drums are designed after a great many years' experience in all kinds of metal and now we can safely guarantee them to be the best ever and can assure you perfect satisfaction.

The shell is of solid $\frac{3}{8}$ " aluminum, cast counter hoops, steel flesh hoops (heavily coppered to prevent rusting), 12 separate tension self aligning rods, 2 Rogers' or No-Nic transparent heads, 12 waterproof (or gut) snares, snare strainer and muffler.

Can be shipped by mail Weight ready for mailing, 7 lbs.

The Wonder Drum

Powerful Tone with Fine Quality

May be used with from two to thirty-piece orchestra with most excellent results.

This drum supplies a long-felt want, as the growing demand for such an instrument is evident proof of the desire of many drummers to have an

All-Round Orchestra Drum

which will be adequate for All and Every Kind of Playing. This drum fills the bill.

It has a Rock Maple Shell, 12 separate tension rods, strainer and muffler. Plays easily and is sensitive to the touch, even when playing ppp. Sharp and snappy, always in condition to produce the best tone and effects.

Weight of drum ready for shipping, 7 lbs.
Can be shipped by mail

14 x 6	280	\$28.50
14 x 7	281	30.00

The NO-NIC Tango Drum

Weight of drum ready for shipment, 5 lbs.
Can be shipped by mail

Our special Tango drum speaks for itself. Once used for the One Step, Two Step, Hesitation, or Tango dancing you would never be without it, because it is brilliant, sharp and has that real tango lift to every response.

Try one, be convinced and win a name for yourself. A tango drummer with a real tango drum is getting the business and always will. These drums are built with the greatest care. Shell $\frac{3}{8}$ " thick, nickel plated steel straining hoop, 24 nickel plated rods, 10 waterproof snares. Best Rogers or NO-NIC transparent head.

12 x 2 $\frac{1}{2}$ " shell measurements, Order No. 56.

PRICE \$18.00

Rope Street Drums

The world standard for street drum work, having a powerful, deep, carrying tone.

To get this deep, carrying tone the shell must first be of solid steam bent rock maple, of which all our drums are made, choicest material, and of most painstaking workmanship.

Equipped with 2 best calf skin heads, 12 sole leather ears, shoe thread linen rope, 12 waterproof (or 10 gut) snares, and our direct, non-twisting snare strainer. Remember, if your street drum is not a solid, steam bent shell you are not getting that deep, carrying drum tone.

Size of Shell	Order No.	Price

17 x 12	74	28.50
17 x 14	75	30.00

Solid Mahogany, Rosewood or Bird's-eye Maple shells with black hoops ADD \$3.00 to above prices.

Will furnish double tension rods in place of thumbscrew rods on above drums at same prices. Extra rods 53 cents each.

Extra rods 75 cents each

Solid Mahogany, Rosewood or Bird's-eye Maple shell with black hoops ADD \$3.00 to above prices.

Our Dress Parade Drum

A hummer for a discriminating Drummer, that makes them all look when you go passing by. Defy the weather, always clear, crisp and a powerful drum with lots of carrying tone.

The handsomest and strongest made rod street drum on the market. It is built with great care, and is light, but very strong and durable.

Equipped with 12 separate tension rods with center post, solid steam bent shell of choicest material, 2 best calf skin heads, 12 waterproof (or 10 gut) snares, and our direct, non-twisting snare strainer. **"Have a Real Parade Rattler."**

Single Head Bass Drum

We can safely say that our single head Bass Drum is the best made drum of its kind on the market. These drums are made for the convenience of the Dance Drummer who has to carry drums and bells.

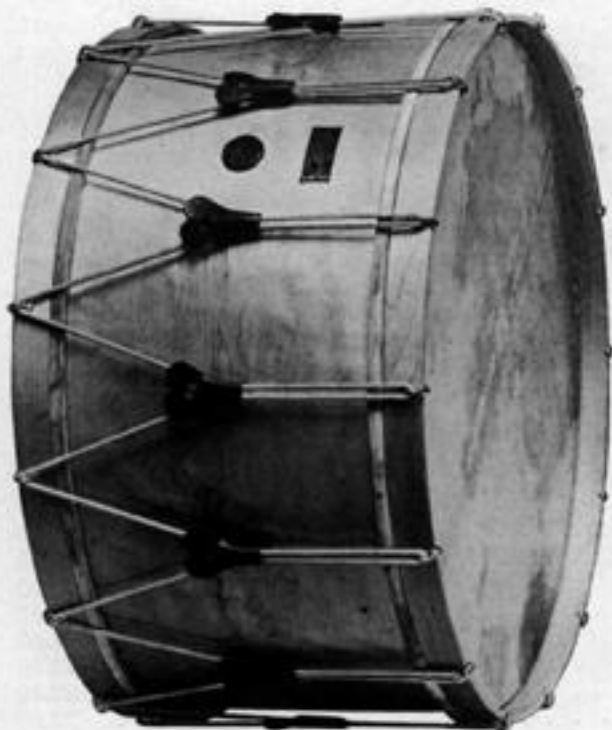

They are very powerful and have a large booming tone and are used by a great number of the best Dance Drummers in this country.

These drums are built with the same care as any of our other drums, with the same material as our Best Bass Drums. One calf skin head, 12 thumbscrew rods.

You will never regret purchasing one of our single head Bass Drums. Stop, think, all the traps carried inside. Weight only 9 lbs.

We will furnish the above drums with mahogany finished shell and ebonized hoops without extra charge if desired.

Machine Tympani

The quickest and easiest working Kettle in the market,*no more turning six handles every time you make a change. All you have to do is even the heads with the key wrench before the performance and then turn the Kettle up or down the rest of the evening. Anybody can play them.

Notice top of Kettle is free and clear of handle or other projection, so you can roll from one Kettle to the other without raising the arms. Two Kettles do the work of four. One-sixth of a turn changes the pitch one-half tone.

The exclusive features are finest Lake Superior Copper Kettles which produce the greatest possible resonance and vibration.

Bell-Metal Bridge Bearing which provides a perfectly true bearing for the head and transmits the tone of the head to the kettle and thus insures a single positive pitch without over-tones.

Heads are tucked on steel flesh hoops, which are nicked to prevent rusting. Flesh hoop sets inside of Steel Straining Hoop, making a strong, compact and powerful combination.

Straining rods, braces and all other parts are made of very best steel and guaranteed to hold. Kettles set on ball bearings which make an easy turning mechanism.

Tenor Kettle 25 inch. diam. Bass Kettle 27 inch. diam. We make a special 30 inch. Kettle for symphony set of three drums.

No-Nic Model No. 4 Tympani

Our latest style in Tympani, especially constructed for quickness in tuning and convenience of Traveling. The handles are made of Tool steel, with 8 threads to the inch, ($1\frac{1}{2}$) turn of the handles gives you the complete compass of kettles. The bracket forms its own ball bearing, no small parts to get lost, or rattle, making free action to the handles, and consequent ease in tuning. By loosening up the handles on the large kettle (as shown in cut) the head can be removed. Special notice is called to the fact that no handles or small parts have to be removed in order to take off heads.

A set of 2 kettles 25 inch.—27 inch. including
1 pair stands with revolving brackets to allow
Tympani to revolve, 2 pair Tympani sticks and
covers Order No. 201 . . . **\$172.50**

for Symphony work. Order No. 201A . . **\$262.50**

Model No. 4 Tympani in Leatheroid Trunk

2 Tympani in 1 Trunk

Saves Excess Baggage Saves Transfer Bills

The greatest time and money saver that has ever been placed on the market. To pack you simply remove the head of large Tympani and place it in notches in cover of trunk.

Then you place small Tympani upside-down on steps in bottom of trunk and fasten with two straps, then place large Tympani kettle over it on second step and fasten with two straps. Takes but a few moments to do it all.

Note that the flesh hoop and straining hoops are locked together by the legs, keeping heads always in their exact position for the kettle.

Order No. 202. Price complete, as illustrated in cat. \$225.00

Order No. 204

NOKES & NICOLAI, BOSTON, MASS.

Strap Model Tympani

This Model is in a class by itself, nothing is bolted to the kettle, the heads are tucked on the straining hoop which prevents all friction and allows the head to touch nowhere except upon the bridge bearing.

The kettles are of the finest copper.

Size of kettles, tenor kettle, 25 in. diameter; bass kettle, 27 in. diameter. We make a special 30 in. kettle for symphony set of three drums.

Price, per pair, complete with sticks and covers, **\$150.00**

Dodge Model Tympani

Order No. 205

The exclusive features are **FINEST COPPER KETTLES**, which produce the greatest possible resonance and vibration.

Bell Metal Bridge Bearing, which provides a perfectly true bearing for the head and thus insures a positive pitch without overtones.

Ball and Socket Strainer, which prevents screws from binding hoops against shell and greatly facilitates tuning.

Imported Hand Skived Heads, which are very even, lively and durable.

The range of the Bass Kettle, which is 27 inches in diameter, is from low F to D. The range of the Tenor Kettle, which is 25 inches in diameter, is from B flat to high G.

With every pair of Tympani, we give one pair Head Protectors, Portable Stands and our own superior Tympani Sticks.

Price, Complete, \$165.00 per pair.

No-Nic Professional Orchestra and Band Bells

No. 225

Our Bells are made of special highly carbonized, superfine, imported steel, tempered especially to our order with the right amount of alloys to produce the uniform resonance and tonal quality of sweet, clear bells.

Mounted on felt and tubular bearing, leaving a clear playing surface free from pegs.

Tuned by our own method of sympathetic vibrations to the electric low pitch (A) international.

No. 225 (Closed)

Mounted in a handsome solid mahogany case, hand dovetailed and highly polished, aluminum backs, metal weather strip, all metal trimmings highly plated. Folding music rack and 3 pair hammers.

Size of Bar $1 \times \frac{1}{4}$, $2\frac{1}{2}$ octaves, chromatic G to C, low pitch. Order No. 225

Price \$41.25

(Securely mounted on racks with 2 pegs and washers to prevent jumping.)

Size of Bar	Order No.	Price
$1 \times 5-16$	226	\$41.25
$1\frac{1}{4} \times 5-16$	227	48.00

Folding Bell Stand No. 450, \$3.75 extra when ordered with Bells. Illustrated on page 39.

No. 226 and No. 227 are mounted on one peg with an extra high pitch note, making the bells interchangeable from low to high pitch.

No-Nic Silver Aluminum Bells

We are sole manufacturers of the Silver Aluminum Bells and especially recommend them to the traveling and Dance Drummer.

After years' experimenting with many different alloys of aluminum, we have succeeded in making

one which has a sweet and more mellow tone than steel—though it is hardly as loud and penetrating, but has a carrying tone.

Besides having an improved quality of tone the Silver Aluminum Bells have five advantages over steel bells that are worth consideration:

First Silver Aluminum Bells are half the weight of steel.

Second, Silver Aluminum Bells do not rust or tarnish.

Third, Silver Aluminum Bells are not affected by atmospheric changes.

S

(stru

2

\$22.50

2

2

230, \$

Fourth, Silver Aluminum vibrations are of shorter duration and in quick runs the tones do not discord with each other.

Fifth, Xylophone Solos can be played with great success on the NO-NIC Silver Aluminum Bells.

Mounted in a handsome solid Mahogany case highly polished, metal weather strip, all metal trimmings nickel plated, folding music rack, 1 pair vulcanized rubber hammers and 1 pair soft rubber practice hammers.

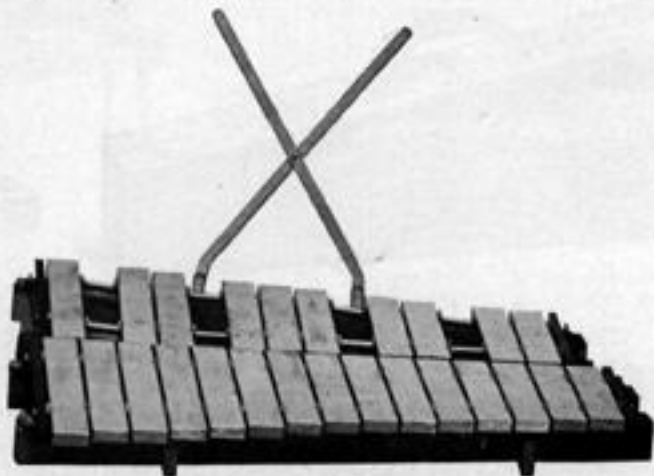

2½ Octaves, chromatic G to C, low pitch, 1 x 3½ inches, No. 228, price \$41.25.

Securely mounted to prevent jumping.

Same as above, on a folding table rack (strung like a Xylophone).

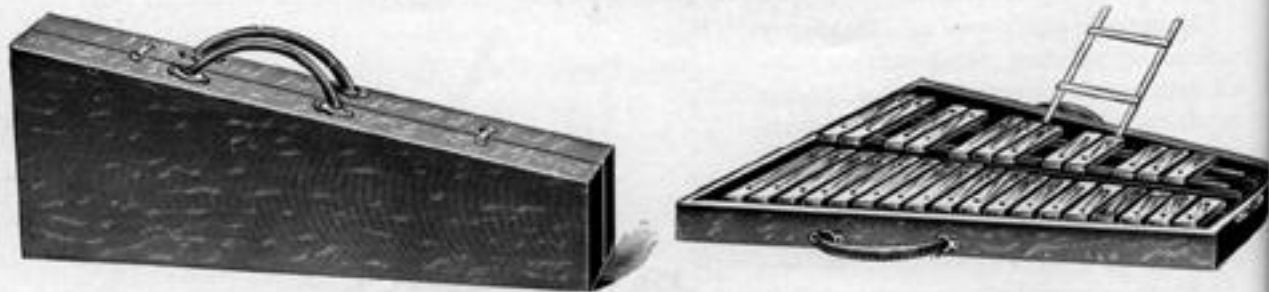

2 octaves, A to A Chromatic, No. 229, \$22.50.

2½ octaves, G to C Chromatic, No. 230, \$27.00.

No. 229

Semi-Professional Bells

The ideal set of bells designed especially for lightness and convenience in carrying for Dance and Traveling Drummer.

We particularly desire to call your attention to the fact that we are using Wm. Jessop's best tool steel in the above bells. Each set is carefully tuned and thoroughly tested with our sympathetic vibrations.

Mounted in a fine Mahogany finished case with detachable folding music rack, 1 pair mineralized rubber hammers, bells highly plated, weight 18 lbs, $2\frac{1}{2}$ octaves chromatic, G to C, low pitch. No. 235, price \$30.00

Special Bells

An excellent set of Bells for theatre, concert and band work, very effective with either hard or soft hammers.

Made of the finest imported steel, with resonators. Mounted on felt, on a take down frame, no screws or nuts to bother with. Complete with hard and soft hammers.

Xylophone

Made of the best Honduras, straight-grained seasoned live Rosewood. Sharp and very powerful penetrating tone. A fine solo instrument, tuned with our sympathetic vibrations to the electric low pitch (A) and we guarantee the tuning to be absolutely perfect. Mounted on a folding, take down hardwood rack, with tubular bearing. Can be carried in a small dress suit case. The compass is 3 octaves chromatic, from C to C. Complete with hard and soft hammers.

Size $1\frac{1}{2} \times \frac{7}{8}$ Order No. 240 Price, \$37.50

Sharps and flats elevated above naturals, if preferred.

Concert Xylophone

These Xylophones are made of well seasoned, straight grained, live Honduras Rosewood, having a very brilliant and powerful tone. It is hardly necessary to say much about this beautiful instrument. By looking at the cut any drummer can understand its merits. Mounted on a folding frame, all metal parts highly nickel plated. Tuning guaranteed to be perfect.

Sharps and flats elevated, if preferred.

Cathedral Chimes

Our Cathedral Chimes are being used and endorsed by a great number of the noted Bands and Orchestras.

There is a fascination about chimes that appeals to everybody.

And a solo well rendered is always a hit and leaves a long impression on the audience.

They have a sweet-true-tone, with excellent volume and quality of a real Cathedral Chime effect.

Our Chimes are made of the best chime material, $1\frac{1}{2}$ octaves from C to F, chromatic, highly nickel plated.

The rack can be quickly put together or taken apart; very firm and rigid, handsomely nickel plated.

Chimes tuned to low international pitch, $1\frac{1}{2}$ octaves, 18 notes, C to F, chromatic, with stand and mallet. Heavy wall, 2 inches in diameter. No. 245, \$225.00

$1\frac{1}{2}$ octaves, 18 notes, C to F, chromatic, with stand and mallet, $1\frac{1}{2}$ inches in diameter. No. 246, \$135.00

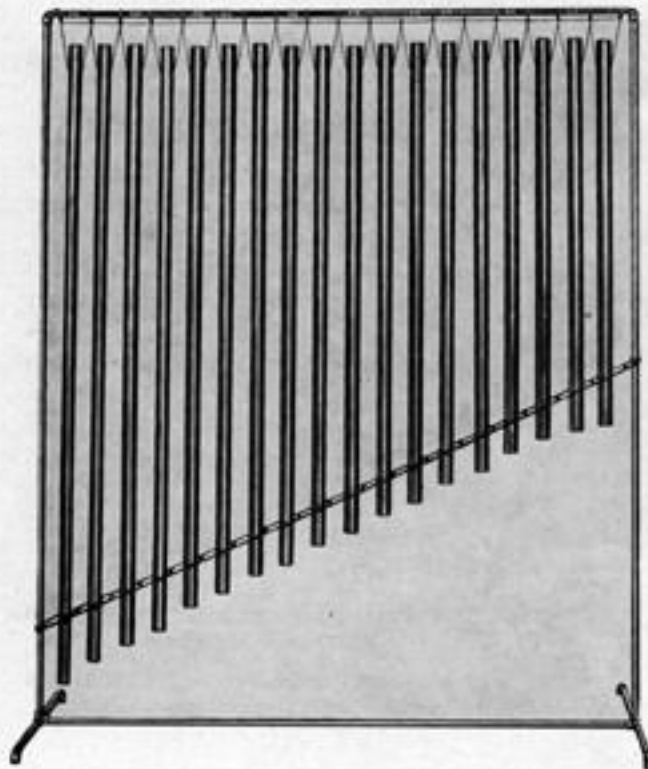

$1\frac{1}{2}$ octaves, 18 notes, C to F, chromatic, with stand and mallet 1 inch in diameter, can be played while seated.

Combined Snare Strainer and Muffler

**SIMPLEST, STRONGEST, SUREST
QUICKEST**

May be attached to any snare drum by two screws.

By pressing the lever down the snares are entirely removed from the head, allowing both heads to vibrate and converting the drum into a perfect Tom Tom. By pressing the lever up again the snares are returned to exactly their former tension.

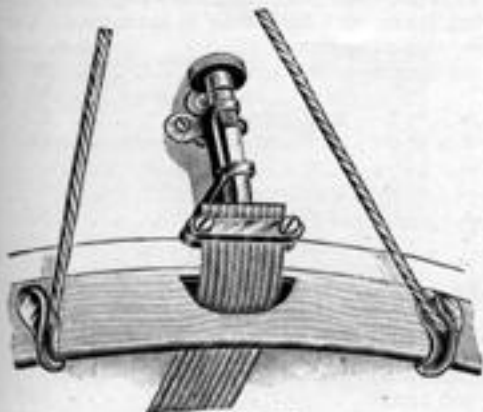

By throwing off snares you overcome the annoyance of snares singing, when drum is not in use.

Made entirely of steel stamping, which makes the lightest, strongest and most accurate construction. Nickel Plated.

Price, postpaid \$1.00

Instruction Books

Nokes and Nicolai Revised and Enlarged Edition, of the Dodge Drum School

A thoroughly "Up-to-Date" Complete Method of 114 pages for the Drum, Fife, Double Drums and Traps, Bells, Xylophone, and Tympani.

Leading the pupil step by step, from the first rudiments to the most difficult professional playing.

The Orchestra Bells instruction consists of 39 pages of the finest studies that could possibly be placed in a book, containing Elements of Tonal Notation, Scales, Exercises in all the Major, Harmonic and Melodic Minor Scales, with 15 of the finest duets by some of the greatest of music composers—all arranged with great care by Carl E. Gardner for the bells.
