

SESSION SERIES DRUMS

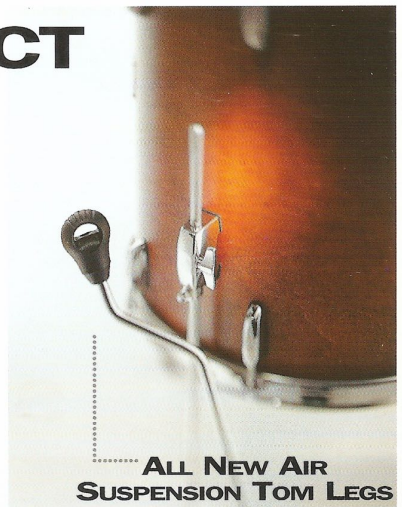

PRESTIGE SESSION SELECT

Features

MAPLE AND MAHOGANY SHELL

Prestige Session Select features a 7 ply, 7.5mm shell constructed of a precise composite of aged Maple and hand selected Mahogany. These fine woods are bonded together using Pearl's patented Heat Compression Shell Molding System to form one of the most aurally intricate drum shells available today. To beautifully seal the Maple exterior and protect the shell, Prestige Session Select offers you the choice of 7 highly polished gloss exterior finishes and 4 new burnished stain finishes.

ALL NEW AIR SUSPENSION TOM LEGS

Pearl's new Air Suspension floor tom legs make a remarkable difference by counteracting the deadening effects of the floor. They add exceptional sustain while also enhancing tone, depth and resonance. Their design is simple yet ultimately effective, featuring a proprietary soft rubber compound in combination with an ingenious air hollow.

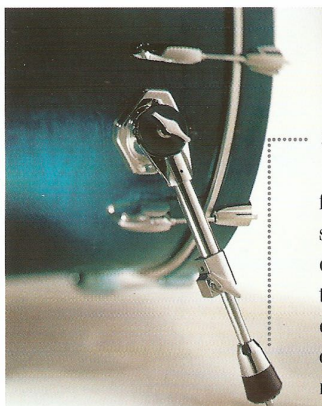

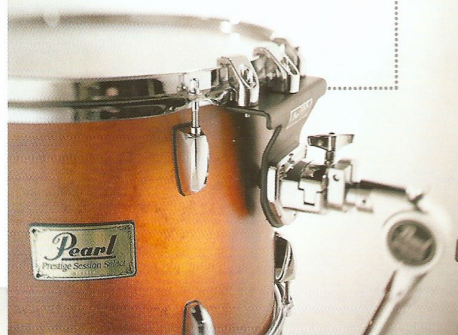

UNI-LOCK TOM HOLDERS

Our TH-98 tom holders provide over 180 degrees of vertical adjustment and a full 360 degrees of horizontal movement for seemingly endless tom positioning options. Pearl's patented Uni-lock system has a super smooth continuous feel without preset gear positions and is locked using a standard drum key.

INTEGRATED SUSPENSION SYSTEM

All Prestige Session Select mounted toms come complete with our patented Integrated Suspension System. I.S.S. grips the drum by the counter hoop allowing the shell to fully resonate completely unrestricted, enhancing both tone and sustain. No other mounting system can match its flexibility, tonal benefits and ease of use.

SP-30 TELESCOPING SPURS

All Prestige Session Select bass drums feature our SP-30 telescoping bass drum spurs. Designed for the professional drummer, the SP-30 spur is extremely quick to position, easy to adjust, and with its quarter turn spike to rubber tipped feet, it offers the absolute ultimate in stability on most any playing surface.

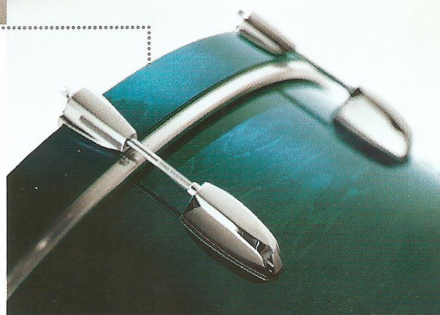

SUPER PROFESSIONAL HARDWARE

Pearl's hardware has long been considered the standard by which all others are judged. The hardware that accompanies every Prestige Session Select pre-packaged kit includes our extremely smooth H-885 roller chain drive Hi-Hat with swiveling leg tripod, our sturdy S-850 Snare Stand with Uni-lock basket adjustment, and what many consider the best cymbal stands available, our double braced C-855W and B-855W.

MATCHING MAPLE BASS DRUM HOOPS

Prestige Session Select bass drums feature 100% Maple hoops with matching exterior lacquer finish. Together with our all new die-cast claws and sleek new all drum key tension bolts, they provide supreme dependability, and the ultimate tuning integrity.

REVOLUTIONARY POWERSHIFTER PEDAL

Power Shifter is the most exciting bass drum pedal on the market today. Its features include a movable footboard to fine tune the action and feel, our patented Quadbeater with four different beater surfaces, silent chain drive, a roller cam hoop clamp system, our patented Uni-Pressure Spring Clamp, and a solid steel base plate, just to name a few.

PRESTIGE SESSION & SESSION SERIES

Features

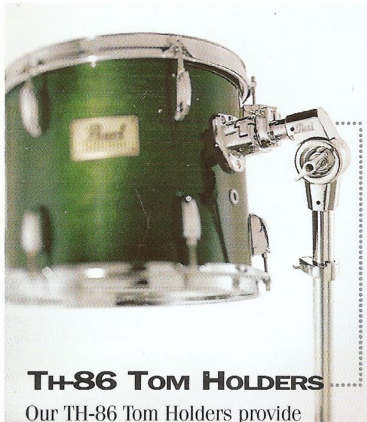

HC/SMS Prestige Session Shell

MAPLE AND MAHOGANY SHELL

Like Prestige Session Select, both Prestige Session and Session Series drums offer a shell precisely composed of aged Maple and hand selected Mahogany. While both are 7.5mm in thickness, Session Series drums are 8 ply and Prestige Session drums are 7 ply. Our Heat Compression Shell Molding System and proprietary adhesive formulation, uses extreme heat and constant hydraulic pressure to bond and dry the plies, producing a shell that acts as if it were formed from one solid piece of pristine wood. Prestige Session offers 7 beautifully polished high gloss lacquer exterior finishes. Session Series drums feature a durable synthetic exterior ply available in 2 highly figured natural Burl Wood finishes and 3 solid color choices.

HC/SMS Session Series Shell

TH-86 TOM HOLDERS

Our TH-86 Tom Holders provide unequalled positioning versatility offering 180 degrees of vertical movement in combination with a full 360 degrees of horizontal pivot. Sturdy, dependable deep gear locking teeth and stop locks for both tom and bass drum mounts insure your tom will stay exactly where you position it.

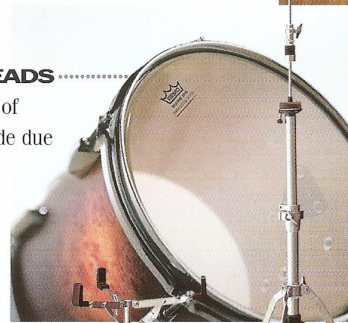

MAPLE AND MAHOGANY HOOPS

Bass drum hoops of Maple and Mahogany perfectly compliment the look and sound of both Prestige Session and Session Series bass drums. While Prestige Session hoops perfectly match the beautiful lacquer finish of the drum, Session Series hoops offer the look of naturally finished Maple in contrast to the drum's color.

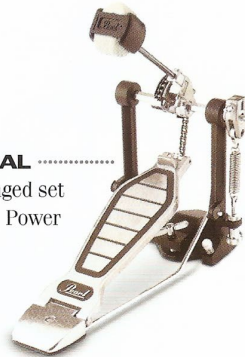

REMO® BATTER HEADS

Remo® heads are the choice of professional drummers worldwide due to their great sound and lasting dependability. These outstanding heads are featured on all Prestige Session and Session Series drumsets.

POWER PRO BASS DRUM PEDAL

Both Prestige Session and Session Series pre-packaged set configurations come complete with our powerful P101 Power Pro bass drum pedal. The Power Pro is packed with exceptional features it shares with our top of the line Power Shifter pedals including our patented Quadbeater four way beater system, the silent smooth power of a felt lined chain drive, precision bearing movement, removable toe stops... the list goes on and on.

PROFESSIONAL HARDWARE

Quality drums deserve quality hardware. All Prestige Session and Session Series pre-packaged kits feature our S-850 snare stand with patented Uni-lock basket adjustment system and a very stable low center of gravity. The H-855 Hi-Hat is the choice of countless professionals offering precise direct chain drive, Omni-Pod swiveling legs, an oversized spring tension adjustment knob, and reversible rubber or spiked tipped feet. The C-855 Cymbal Stand features our Uni-lock Cymbal tilter, smooth nylon lined clamp style pipe joints and sturdy single braced leg tripod.

PEARL'S NEW SENSITONE SNARE DRUMS

Our all new SensiTone Snare Drums have the classic look of vintage drums and a sound that offers great sensitivity, tonal clarity and outstanding body. Formed into the center of each shell is a ring to enhance projection while also protecting the rigidity and integrity of the shell. Our new SuperHoop II Steel Rims, SR-014N smooth action strainer and classic bridge-style lugs with brass inserts complete the look and function of this great new snare drum line. The 6.5" steel shell SensiTone Snare drum is featured with Prestige Session Select pre-packaged kits while the 5.5" steel SensiTone accompanies Prestige Session and Session Series kits.

PRESTIGE SESSION SELECT

Sound. Quality. Performance. Price. Most working drummers use these important factors to determine which drum set will offer them the best value, and ultimately which kit they'll want to own. It's no accident these same four factors also represent the criteria we used to design our all new Session family of drums.

Prestige Session Select, as the name implies, is something very special, in a market filled with "me too" drum sets. Designed for the true working drummer, offering features you usually can't find in this price range, Prestige Session Select combines these features with a sound that will definitely impress even the most discriminating ear.

We started with a uniquely precise shell composition of aged Maple and hand selected Mahogany. The interaction of these two fine woods produces a very smooth, warm tone with great punch, attack and an excellent low end presence. One listen and you'll be a believer. But a great sound is only part of the reason why Prestige Session Select will win you over. Six beautiful high gloss lacquer finishes and four pristine hand stained burnish finishes also

PRESTIGE SESSION

Our Prestige Session drums offer you a distinctive set of available options and features, built with the same quality and craftsmanship which symbolizes our all new Session family of drums. Using exactly the same shell as Prestige Session Select, Prestige Session drums feature a warmth and smoothness that is evenly distributed across each drum's entire tunable range. Incredible low end depth, stunning attack and great punch are all characteristics of Prestige Session's signature sound. Seven highly polished glass-like lacquer

finishes are available with most allowing the beauty of natural Maple wood grain to show through.

Pre-packaged Prestige Session kits include a convincing array of features including our new 5.5" Steel shell Sensitone snare drum with brass swivel nuts, our silent P-101 Power Pro chain drive pedal, Remo® Ambassador batter heads, our TH-86 deep gear tom arms, and the sleek styling of low mass lugs. Our direct chain drive H-855 hi-hat stand, sturdy S-850 snare stand with Uni-lock basket adjustment and our C-855 cymbal stand with Uni-lock tilter, complete a set that could well be the greatest value available in drums today.

SESSION SERIES

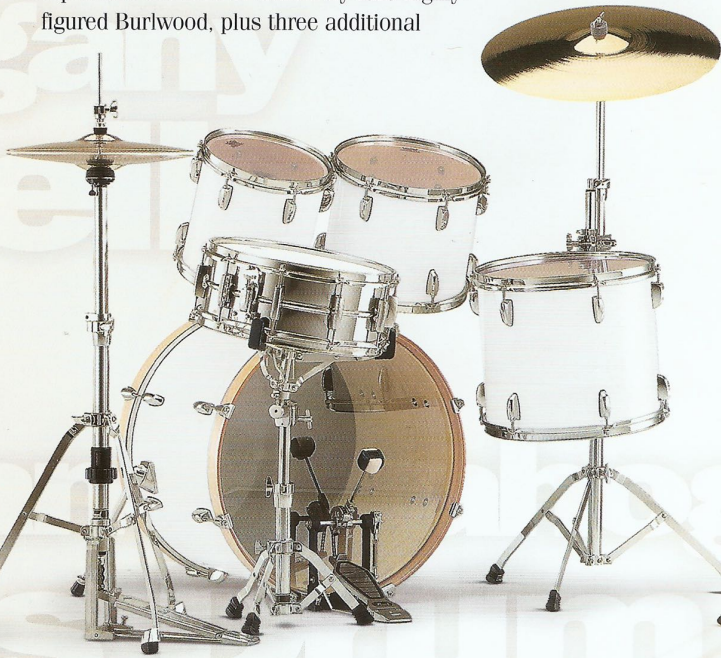

For the drummer attracted to the incredible durability and protection of a covered finish, but wanting the sound and look of a kit costing thousands more, our new Session Series may be just what you're looking for.

Session Series drums are created around the exact same shell as both Prestige Session Select and Prestige Session, but with one exception. We've exchanged the outer ply in its Maple and Mahogany construction, and added our new DuraPly exterior covering. DuraPly offers you two beautiful natural wood finishes that reproduce the look of extremely rare highly figured Burlwood, plus three additional

high gloss opaque finish choices. The rich, full bodied tone these drums produce, combined with the ultimate protection and stellar looks of DuraPly, is destined to make our Session Series drums extremely popular among working drummers.

Pre-packaged Session Series kits feature our new 5.5" steel shell Sensitone snare drum, our H-855 direct chain drive hi-hat, our S-850 snare stand, C-855 cymbal stand and the extremely smooth and powerful P-101 Power Pro chain drive bass drum pedal.

Professional sound, great looks, superb performance and superior quality. Pearl Session Series drums...the features you need, at a price you can afford.

SOPRANO AND SOPRANINO SNARE DRUMS

The sound of Soprano and Sopranino snare drums have become so popular in the last few years that many drummers now use them as both their secondary and primary snare. We

offer 3"x13" Soprano snare drums in your choice of either Brass, Maple or Steel shells. Our 4"x12" and 4"x10" 100% Maple Sopranino Snare Drums are a great addition to any kit.

CYMBAL AND BOOM STANDS

Pearl's Cymbal and Boom Stands are considered the strongest, most durable stands on the market today. Our new C-800W and B-800W Power Pro line offers sturdy double braced legs at an extremely affordable price. Our C-855 and C-855W Cymbal Stands and our B-855, B-855W and B-855WL Boom Stands all provide the patented Uni-Lock Cymbal Tilter for precise cymbal positioning.

ICON RACK

Our patented non-slip square tube rack has always separated Pearl from the puzzling pipe rack designs offered by others. The all new Icon Rack System now adds independent adjustability to an already near perfect design. Icon stands for Independent Control. Each square tube is now individually height adjustable, allowing complete control over tom and cymbal placement. Three all aluminum square tubes insure your mounts no longer loosen and spin after they're positioned, and four legs with square stabilizing feet offer you the most sturdy, rock solid rack on the market today.
