

DRUMSETS, PERCUSSION & ACCESSORIES / 1988

THE
SOUND
IS
TOTALLY

REMO **USA**®

THE SOUNDS

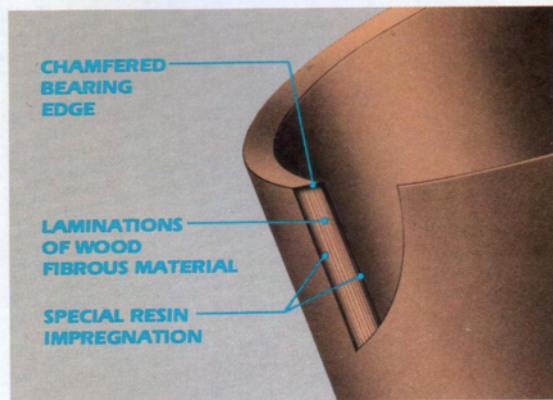

Each year we strive to improve the performance, quality and *value* of Remo drums, percussion instruments and accessories. For 1988 we are pleased to introduce our MasterTouch Series of drums that truly redefine the meaning of topline quality...and the innovative Spoxe line of percussion instruments that allow you to create your own personal sound. In addition, we have made many refinements and improvements in our previously-introduced lines in response to the experiences and suggestions of you — our valued customers. We invite you to *experience* the sound, the look and the “feel” of Remo percussion for 1988 — the result of our continuing efforts to create better drums at *affordable* prices. We believe you’ll enjoy the experience!

ACOUSTICON® SE SHELL

Totally Remo sound starts with a unique shell concept. The Remo Acousticon® SE Shell is like no other: It's lightweight, moisture-proof and highly durable — yet unusually *vibrant and alive* with a distinctive timbre acclaimed by many leading studio and concert performers. Each drumshell is a lamination of wood fibrous material, bonded together with a hard silica resin and then treated with other resins to enhance the sound quality and projection. Through extensive experimentation and testing — in collaboration with Louie Bellson, Remo's VP-Product Development — today's Acousticon SE shells represent state-of-the-art technology . . . with a great *sound difference!*

T O T A L L Y R E M O

REMO'S FINEST

Remo drum heads are preferred by more drummers worldwide than all other brands combined! For our own Remo Drumsets we've chosen our most preferred professional heads, selected to enhance and complement the Acousticon® SE shells. *MasterTouch* and *Encore* Series sets come with clear PinStripe batters, clear Diplomat bottom heads and coated Ambassador snare heads — plus Ebony front bass drum heads. Our most affordable *Innovator* Series delivers professional sound and performance with PTS Ambassador coated heads. Three great series — three great sounds — and all unmistakably, totally Remo!

DYNAMAX HARDWARE

Remo's own Dynamax brand drumset hardware is available optionally in four different series to fit every need — including the topline 510 Series Extra Heavy Duty professional hardware. Order individual pieces or complete packages as you desire — all are made to high professional standards. See page 12 for full details.

QUADURA® COVERING

Remo's renowned Quadura® covering is now recognized as the percussion industry's finest — remarkably scratch-resistant and wrinkle-free even in extreme hot and cold temperatures. Over 100,000 Quadura-covered drums have been sold without a wrinkle! Only Remo makes it, only Remo has it — on each and every Remo drum shell. Now available in seven high gloss colors (plus a special Amagi burl). Specify by changing the "-XX" suffix in the drum order number to the number listed at right for your color choice.

REMO MASTERTOUCH

NEW TUNING LUG

Exclusive Remo design with see-thru window for a contemporary new look.

MA-4711-XX 7-PIECE POWER TOM SET

REMO SPOXE™

INTRODUCING REMO'S HOT, NEW 'FLAVOR ENHANCERS'... PERCUSSION INSTRUMENTS THAT LET YOU CREATE YOUR OWN PERSONAL SOUND!

Remo Spoxe™ (pat. pend.) are precision-made chrome-plated castings that produce a pure, resonant tone when struck. Made in eight sizes from 5½" to 19½" in diameter, Spoxe can be mounted like cymbals and used individually, in groups and in combination with cymbals, hi-hat stands and other accessories to create a limitless range of sounds. Any way and every way you can think of is the right way to use Spoxe...they're truly the design-your-own sound percussion instruments!

...as featured in concert and on records by Terry Bozzio, Ndugu Chanler, Omar Hakim and many more!

Use a single Spoxe as a bell... or a chime...

...or strike two Spoxe together and you've got an amazing polytonal effect.

Put a cymbal inside a Spoxe and the sound sizzles for a 'white noise' effect...but don't stop there—

Each Spoxe is individually boxed. Remo, Inc. does not offer Spoxe sets or standard mounting hardware, because we believe every artist will want to devise unique and individual setups.

Build yourself a Spoxe hi-hat using two same size or two different size Spoxes—and the sound gets wilder...

Mount a whole 'tree' of Spoxe on a stand, and you've created a whole palette of tone colors to play with!

ORDER NO.	DIAMETER

DYNAMAX HARDWARE

DYNAMAX HARDWARE

Remo Dynamax™ brand drumset hardware is quality-built in Remo's own factories to offer top value and performance-proved features. Four series are offered to fit every requirement. Series 510 Extra Heavy, Series 310 Heavy Duty, Series 110 Standard and Series 100 Economy. All Dynamax hardware may be ordered separately, or in the packages listed on page 15.

SERIES 100 ECONOMY

Sturdy adjustable stands of lightweight tubular steel with chrome plating. Direct chain-pull hi-hat and bass drum pedal.

SERIES 110 STANDARD

Stable and durable Positive locking clamps have no-mar nylon bushings. Snare stand has adjustable basket.

SERIES 310 HEAVY DUTY

Double braced legs, heavy tubular steel sections. Bass drum pedal features smooth, single-spring action with adjustable stroke length, felt beater, rubber-cushioned toe clamp.

SERIES 510 EXTRA HEAVY

Super stable design with double braced legs and positive-acting tube-clamp height adjustment. Snare stand has precise ball clamp drum positioning, adjusts to extreme low position for deep drums.

- DY-9010-00 3-way Multi Clamp
- DY-9020-00 2-way Multi Clamp

MUFF'LS

Muffl Sound Control and Muffl Ring Control accessories eliminate taping drumheads, stuffing drum shells and other makeshift muffling! Instead, these versatile components fit inside any conventional or pretuned drum without attachment to provide any of four different levels of sound control.

MUFF'L SOUND CONTROL provides three stages of sound modification: moderate ring control, studio muffling and quiet practice. Includes one Plastic O-Ring Tray and two Sound Absorbing Foam Discs.

MUFF'L RING CONTROL provides choice of moderate or total ring control. Includes one Plastic O-Ring Tray and one Sound Absorbing Foam O-Ring.

QUADURA® DRUM RECOVER KITS

Quadura® Recover Kits are available in eight colors—White, Chrome, Black, Blue, Deep Red, Amagi, High Tech Grey and Gold—and are sized to fit Remo standard and power tom drumsets as well as other similarly-sized drumsets. The kits include double-faced adhesive tape and instructions. See page 1 for color examples.

CK-3500-XX STANDARD 5-PIECE KIT

To fit 8x12, 9x13, 5½x14, 16x16 and 14x22 drums and two bass drum counterhoop inlays.

CK-4500-XX POWER TOM 5-PIECE KIT

To fit 11x12, 12x13, 8x14, 16x16 and 16x22 drums and two bass drum counterhoop inlays.

SPECIFY COLOR by changing suffix "XX" in order number as follows: "-00" White, "-10" Chrome, "-22" Blue, "-30" Amagi, "-52" Deep Red, "-70" Black, "-80" Gold, "-90" High Tech Grey.
