## PTS POWERSTROKE LUG-TUNED

Remo, Inc. proudly introduces a new generation in Remo PowerStroke Marching Percussion, offering state-of-the-art PTS technology in two, distinctive Series—PTS PowerStroke Lug-tuned and PTS Innovator Pretuned. Both feature the unique benefits only PTS can deliver: **SUPER LIGHT WEIGHT** for carrying ease, as much as **40% lighter** than conventional drums... **SUPER STRENGTH AND DURABILITY** to withstand high impact playing, rough handling and temperature extremes... **CONSISTENT PERFORMANCE** resulting from Remo's simple, trouble-free design that requires fewer adjustments... **EXCLUSIVE QUICK HEAD CHANGE CAPABILITY** because only PTS heads are pretuned during manufacture to require little or no additional tensioning, as desired... **SUPERB COMPETITION-QUALITY SOUND** unsurpassed at any price! And both Series feature the exclusive Remo manufacturing and materials technological advancements that have changed the way drums are made.

### Acousticon® SX Drum Shells

Each shell is a lamination of wood fibrous material, bonded together with a hard, silica resin and then fully impregnated with other resins to produce a thin, rigid shell—strong as wood, yet far lighter—with exceptional acoustic qualities. The hard surface is totally impervious to moisture and humidity inside and out. The bearing edge of each shell is precision-cut and hardened to withstand extreme tensioning and constant battering.

### Quadura® Wrinkle-free Covering

Only Remo produces its own drum covering material in-house. Exclusive Quadura is a superior, multi-layered material that is scratch-resistant and wrinkle-free. Even black Quadura is guaranteed not to wrinkle in 140° temperatures!

### PTS PowerStroke Drum Heads

These exclusive high strength heads have been developed specifically for use on Remo PowerStroke Marching Percussion. They're pretuned, yet allow extreme tensioning for competition sound and performance.

### Plus...

- ★ Exclusive GutTone synthetic snare on lug-tuned snare drums... bright sound, all-weather performance.
- ★ Built-in leg rests on all parade drums.
- ★ Choice of improved Lightweight Aluminum Carrier or super light and comfortable Fiberglass Vest Carrier.
- ★ Choice of eight Quadura colors (see back page).

The ultimate in high performance, competition-quality marching drums, combining PTS benefits with PowerStroke lug fine-tuning!

Chrome Quadura covering is standard (other colors available at no extra cost). See back panel for color ordering information.

### PARADE DRUMS *Carrier Extra*

Leg rest, multi-angle carrying bar, carrying strap, sticks and drum key included. Snare drums have GutTone Snares.

MODEL NO.	DESCRIPTION
