Leaders in new concepts in Percussion

dyna-sonic trademark

METAL SHELL SNARE DRUMS

Now . . . Two Distinct Snare Concepts

Choice of New "Nylon" Snares or Wire "Snappy" Snares

Rogers Engineering has added a new feature to the now famous Dyna-sonic snare drum.

In addition to the Wire "Snappy" Snare assembly, Rogers introduces Dyna-sonic with NEW "NYLON" Snares. Utilizing the patented floating Snare assembly with nylon, which produces the "Short-Dry Sound" desired by leading Concert and Symphonic Percussionists.

WIRE "SNAPPY" SNARES

No.		TAX PAID
36—5" x 14",	For all-around solo work. All Metal Shell, Deluxe chrome plated	\$150.00
37—6½" x 14",	All Metal Shell, Deluxe chrome plated. Ideal for School and Concert	\$152.50

"NYLON" SNARES

39—6½" x 14",	All Metal Chrome Shell, same as above but with New "NYLON" Snare Assembly. For Concert and Symphony Work.	\$152.50
---------------	-------------------------------------------------------------------------------------------------------------------	----------

CUSTOM BUILT . . . specially constructed, double beaded shell for added strength and durability. Center lines add richness and beauty.

MORE RESPONSE . . . snares respond, even on pianissimo playing.

MORE POWER . . . maximum projection with less effort and without distortion.

MORE SOUND . . . positively NON-CHOKING because snares are absolutely uniform and parallel to the snare head.

BETTER STICK FEEL . . . more rebound—the sticks literally fly off the head.

THE DRUM OF THE FUTURE . . . It's here today. Make your own test. You'll be amazed at what you hear and feel.

With Internal Tone Control, Unless Otherwise Specified

SWIVO-MATIC

FOOT PEDALS

"This pedal does for drumming what power steering does for driving." That's how one top drummer put it! This is a drum pedal. It adjusts exactly, completely to you.

Note these Swiv-o-Matic adjustments. You adjust spring tension from top — easily, instantly. You swivel footboard so you play naturally, comfortably, no matter what the stage set-up. Special hinge keeps pedal seated flat on any floor.

Attachment to bass drum is unbelievably simple, won't slip or chew hoop. Single step take-down, and pedal folds into small compartment of trap case.

You can adjust length of stroke without changing beater height. You can raise or lower beater action without changing length of stroke.

*revolutionary new design! cuts foot fatigue!
adjusts to your natural position! gives
smoothest action ever!*

*notice how this pedal adjusts to you
to your foot — to your drums — to your style*

- you raise or lower beater action without changing length of stroke—so you get the exact sound you want from any drum
- you adjust length of stroke without changing beater height
- you swivel footboard from left to right so you play naturally, comfortably
- you adjust length of footboard to your exact shoe size and retain perfect pivot action
- you adjust spring tension from the top—easily, quickly with specially positioned spring

And note these special features:

- Built-in spurs prevent creeping of drums or pedal
- beater rod clamp is engineered for positive-permanent grip
- pedal folds up with single step into small compartment of trap case—assembles in seconds
- new needle-type bearings give maximum speed, smoothness
- so simple, it's practically trouble-free for life.

You'll play with half the effort!

for the first time, you can play NATURALLY ... for the first time, you have a pedal designed to adjust to your own physical requirements and your own style of playing—and all you need is a standard drum key!

No. 296H—Swiv-O-Matic Pedal,
with Hinged Heel

\$39⁵⁰
EACH

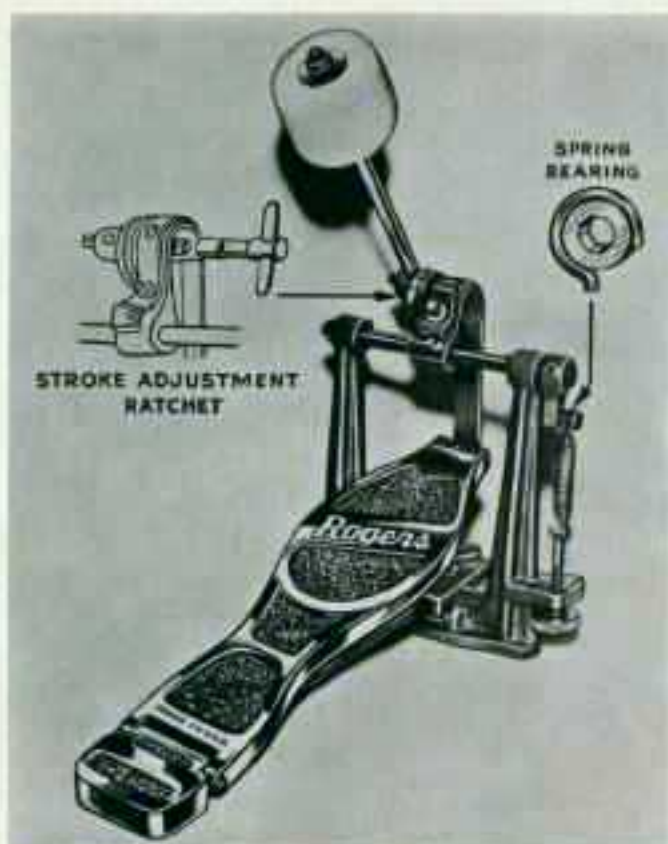

Rogers Swiv-O-Matic foot pedals are used by drumming musicians like RICH, BELLSON, COLE, CHAPIN, PERRY, COTTLER, BURNES, KRELL, and many others.

with Solid Footboard

\$39⁵⁰
EACH

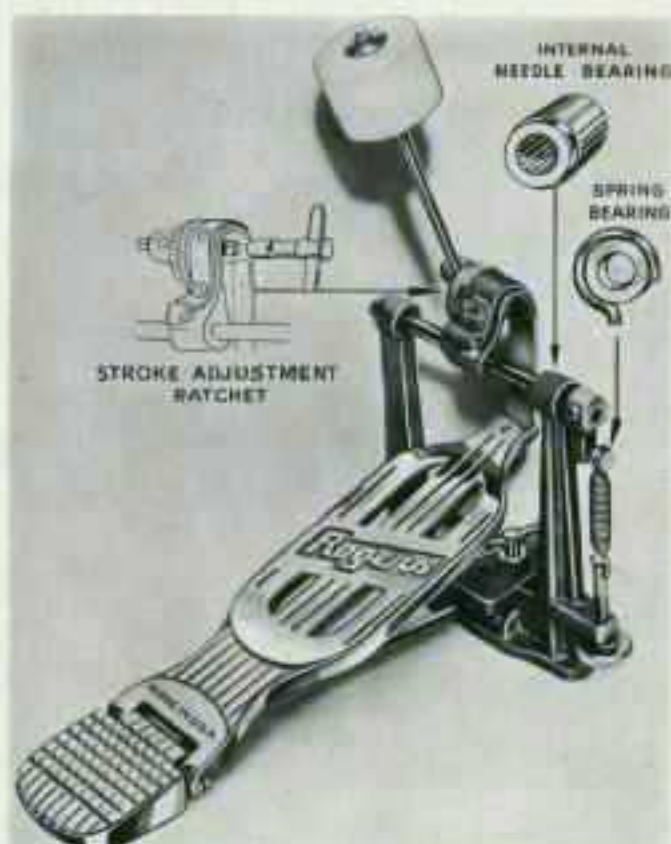

Pat. Pend.

No. 399—ROGERS "JET" SPEED PEDAL \$19.50

With Exclusive Stroke Action Adjustment

Here's a whole of a new pedal at a moderate price. The double post standard and all other cast parts are of a new aluminum alloy — toughest metal known to the science of metallurgy. The new, exclusive ratchet-type Cam permits beater stroke adjustment without changing beater height or foot action. Fitted with jumbo, self-aligning spring. Solid felt beater ball, designed to produce the tone desired by modern drummers.

Pat. Pend.

No. 398—ROGERS "ROCKET" PEDAL \$25.00

The Rocket pedal is another product of advanced Rogers originality and skillful engineering. It embodies new exclusive (pat. pend.) features which provide lightning-fast action with a minimum of foot fatigue. Built of aluminum alloy, one of the strongest new metals the science of metallurgy has produced. Ideal for heavy duty use, an essential for modern drumming.

- New exclusive ratchet type Cam adjusts with standard drum key.
- Adjusts length of beater stroke without changing beater height. Saves foot motion, eliminates foot fatigue.
- New, needle type bearing provides smooth, speedy action.
- Two-piece footboard with hinged heel. Deluxe, polished finish.
- Durable hoop clamp, designed also to serve as a hinge for footboard rod. Permits proper seating of pedal on any floor.
- Self-aligning, jumbo spring operates on bushing. Has large knurled knob for easy tensioning.
- High quality solid felt drum beater.

THE "CHAMP" PEDAL

A sturdy, 2-post pedal with strong steel frame, hinged footboard and steel heel, covered with non-slip rubber pad. Dependable, fast action with tension spring outside the frame. Solid felt beater ball. Exceptional value.
