PRICE LIST FOR DRUM AND BUGLE BOOK

PROFESSIONAL-TYPE DRUMS

All the drums in this catalog were made before government restrictions were issued limiting the use of necessary metal parts. Therefore, every drum is exactly the same fine quality always sold by Sears. Big bands -- popular from coast to coast -- use drums and drum accessories just like the ones now offered by Sears."

Because of present government restrictions, it is impossible today to manufacture any more drums of the same design and materials formerly used. But a small supply of Sears universally-accepted, professional-type drums is still available. Whether you are a beginner or a master drummer, you will be able to find in this catalog a fine quality drum to fit your needs.
