THE NEW "Super"

RADIO KING SNARE DRUM

Again Slingerland leads with a new creation: The "Super" Radio King Snare Drum.

Here is the drum that has everything that is humanly possible to incorporate in a well-balanced instrument. A drum that is designed to meet the most exacting requirements of either the Modern Swing drummer or the Artist who performs so nobly in our traditional symphony orchestra. One needs only to try this instrument to be convinced that the Slingerland engineers have again triumphed.

This instrument responds to the slightest tap of a stick and may be worked into a crescendo of FFF proportions with a minimum of effort. Through the aid of our full flanged counterhoops and our Super Radio King matched heads, it develops a depth of tone and brilliance seldom equalled in any type of percussion instrument.

Our new snare strainer (Pat. applied for) with 20 self aligning snares matches the beauty of this modern drum. The strainer gives a positive throw-off in either direction and to facilitate speed, we have added a telescopic lever. We can positively guarantee that no better workmanship or better materials are used in the drum world today. This new creation is a wealth of beauty with an abundance of tone, power, and snap seldom equalled at any price.

Prices in this Catalog include Federal Excise Tax Levied and Effective October 1, 1941.

Dance Drummers,
Attention!

A long felt need has manifested itself in this new creation of a professional drum outfit that is within the reach of most high school boys. Under no circumstances have we cheapened this outfit from a quality standpoint. Rather, we have reduced the number of accessories which may be added as circumstances permit.

Slingerland Conga, Bongos and Timbale Drums

Again a Slingerland Scoop. For the first time in any American catalog. A complete line of the ultimate in "Latin American Rhythm Instruments"—Bongos, Conga Drums, Timbales, etc.

The last word in quality products. Far superior to the crudely made native instruments in use today. Be one of the first to own these marvelous additions to the modern outfit. These instruments of unsurpassable tone quality can be had with the heads pulled down below the shell for hand playing, or, with rims above the shell for stick playing, both of which are correct, at no extra cost.

PHIL RALE model of Bongos with special holder for attaching to bass drum directly behind wood block and cow bells making possible a variety of uses. These instruments acknowledged by native Latin American musicians to be the finest of their kind because of flawless construction and true tonal quality.

Quality Heads

No matter how fine the drum may be—tone quality, snap, and feel depend largely upon quality of heads used. We have concentrated upon producing the highest grade heads available, realizing that heads play such an important part. The nearness of the Slingerland head plant to the Chicago Stock Yards permits the selection of strictly fresh Calf hides. The selection of these hides is personally supervised by Mr. H. H. Slingerland, and all of the head manufacturing operations are under the care of experienced workmen. Knowing what constitutes good heads, we are enabled to turn out the finest quality because all of the factors contributing to the making of fine heads are present. Slingerland Supertone Calf heads are noted for their toughness and close fibres.

Radio King Whitecalf Heads

Here are the finest select Calf heads available. Made for the discriminating drummer. Glossy, smooth, close fibers, hard white select heads for those who demand the finest.
