

Since first introducing Tempus Fibreglass Drums, we've continually worked to improve and update our products. Throughout this process, our basic concept has remained unchanged – *A Great Drum is an Inspiration.*

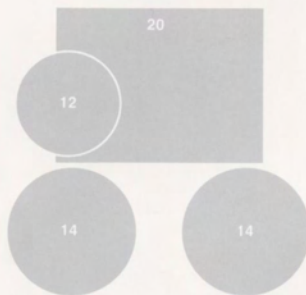

In a truly great drum, a number of basic elements are present – quality construction and craftsmanship, durability, consistency and, above all, superior sound. All of these properties are inherent in Tempus Drums.

The instruments we make are, by their very nature, totally unique – completely unlike any other acoustic drums. Our drums set us apart from the crowd. They can do the same for you.
