AND THE POLL-WINNING STARS WHO PLAY THEM.

Annually Birdland (the Jazz Corner of the World) spotlights world famous Gretsch drums and the jazz drum greats, the men who consistently win the jazz polls, by holding a Gretsch drummers battle royal. Recorded live at this famous New York jazz mecca, Gretsch drum stars Art Blakey, “Philly” Joe Jones, Charlie Persip and Elvin Jones battle it out surpassing each other in some of the greatest modern drum solos and duets ever recorded. And, of course, Gretsch drums star throughout on the most exciting drum recording ever made “Gretsch Drum Night at Birdland.”

For more than three-quarters of a century, the Fred. Gretsch Mfg. Company has been dedicated to the sound of drums...making news with a host of important technical “firsts”...perfecting the “Great Gretsch Sound” with the precise, quality construction famous drummers demand.

Why is “That Great Gretsch Sound” so outstanding? It is the superb tonal quality built into each Gretsch instrument. Response is quick and lively. And your Gretsch drum holds its tension, regardless of weather.

Step by step, Gretsch drums are meticulously constructed to last throughout your career, make a handsome appearance, and sound great.

Gretsch—first with the small bass drum, first with disappearing drum spurs, first with built-in adjustable Bass Drum tone control and Micro-Sensitive Snare Strainer...first with self-seating, self-aligning, strip-proof tensioning throughout...and first with the unique molded 6-ply/shell construction, guaranteed for life, that assures perfect roundness, shell strength, and distortion-free sound. The gleaming chrome-plated hoops, too, have the exclusive plus of die-cast molding to give you superior sound and stick protection on your rim shots.

These are but a few of the reasons “That Great Gretsch Sound” has become a byword and a source of confidence to drummers throughout the world...on bandstands and marching grounds alike. Naturally, we’re proud of our reputation. It comes from many years of technical and musical know-how, many years of keeping pace with progress and remaining alert to your needs. In the years ahead, you can depend on the same dedication, the same high standards to bring new heights of greatness to “That Great Gretsch Sound.”

“MICRO-SENSITIVE” SNARE STRAINER

THROW OFF

Now! A fast, positive throw-off that’s quiet and cannot slip. Really professional and, we think, the finest snare strainer yet developed. Used by everyone—jazz drummers, concert bands, and drum corps. Unusual in its dual-tension adjustment—one for close tuning on the strainer itself, one with faster action on rear snare bracket. Snares are attached to the strainer with Mylar, eliminating the danger of breakage and weather reaction. And for the drummer who wants a tight snare sound and requires snares placed as flat and even against the snare head as possible the Gretsch “Micro-Sensitive” Snare Strainer is the ultimate in control.

Ideal for drum corps and marching bands because they adapt perfectly for single stick drumming as well as the spectacular, double stick Scotch-style overhand technique. The narrower shells mean less weight, while the tone is full and solid, adequate to all demands. Choice of many beautiful hand-polished finishes as listed. All metal parts are polished, tarnish-proof Chrome plate. Each with sling and one pair Scotch beaters.
