REPLACEMENT PARTS CATALOG

LUDWIG DRUM COMPANY
1728 N. DAMEN AVENUE • CHICAGO, ILL. 60647

INTRODUCTION

The Ludwig Drum Company takes pride in introducing the first replacement PARTS CATALOG in the drum industry. This is a supplement to our General Catalog #67 and provides us with the opportunity of illustrating and listing a great many more parts with a continuous replacement history than in the past when the "parts section" was printed as part of the general catalog.

Another "first" is the inclusion of the complete "Timpani Parts Section" which has never appeared before and facilitates easy and quick replacement of timpani parts when required.

The dealer should have this very complete and extensive drum parts catalog always in his files for quick reference when needed and should always carry a supply of replacement parts as his trade demands.

It is good business to provide the consumer with service on repair parts when needed. It is our desire to join with the dealer in this effort.

William F. Ludwig, Jr.
Executive Vice President

HOW TO ORDER:

Ludwig parts are sold by authorized music dealers everywhere. When ordering, please give full catalog part number with model, size and color (if hoops).

If you don't see your part listed please send sketch with accurate measurements of item requested plus the model number

of the product that the part is related to.

A minimum order of \$5.00 list is required when ordering any combination of Ludwig products or parts.

Be sure to include your complete name and address on the order. We cannot be responsible for cash sent through the mail.
