**FRANK
WOLF**

Drummers Supplies Inc.

232 WEST 48th STREET • NEW YORK CITY, N. Y.

Dear Drummer:

From our daily contacts with thousands of drummers in every branch of the music business and from our own long experience, we sincerely believe that one of the most appreciated services which can be rendered to you is that of personal, painstaking, skillful care of your drum problems. No matter where you are, if you have a drum problem that bothers you--communicate with us, thru your local dealer. We're more than happy to help you find the answer.

Frank Wolf's association with drums began at the age of 12. Today he enjoys a reputation second to none. The drum business bearing his name was organized in 1910. Since then he has contributed many worthwhile improvements: the most widely acclaimed being the famous "2 to 1" Tension Snare Drum and Push-Power Pedal. These aids to better drumming supersede many old-fashioned beliefs and make for better all around performance.

Great strength combined with light weight, beautiful appearance, quality of tone and ease of performance characterize the precise workmanship of all FRANK WOLF PRODUCTS.

On the other pages of this letter are listed various articles, which combined with our catalog "A", represent the wide variety of typical FRANK WOLF values.

Visit our establishment in New York, or order directly thru your regular local dealer. If your dealer cannot supply you order directly from our literature. You will receive the same careful, personal consideration which has made thousands of friends for our house.

Cordially yours,

FRANK WOLF DRUMMERS SUPPLIES, INC.
