• CHAMPION • COCKTAIL DRUMS

In recent years the Cocktail or "Stand-up" drum has become very popular with cocktail lounge units and other small combos. By engaging the internal adjustable snare Throw-Off under the top head the drum gives a crisp effect when played with brushes. By releasing the snares a deep Tom Tom tone effect is obtained. Thus the Cocktail drum affords variety and color. It can be used either by the vocalist or by an instrumentalist in the band. The Bongo and cowbell attached to the drum enable the player to produce delightful Latin American music.

"STANDARD" SINGLE HEAD MODELS

Chrome Fittings

The bass drum shell is of rigid, laminated construction, measuring 25" deep and 15" in diameter. Has top head only (open bottom), internal adjustable snare Throw-Off, flanged metal top hoop with 8 tension rods. Ornamental wood counter hoop, inlaid with pearl. Floor legs are adjustable to 38" maximum height. Adjustable cymbal holder. Adjustable cowbell holder.

The matching, tunable Bongo drum measures 10" in diameter and 5" in depth. It has flanged metal hoop with 5 tension rods. It is fitted with a bracket for quick set-up. This outfit is outstanding in value and performance.
