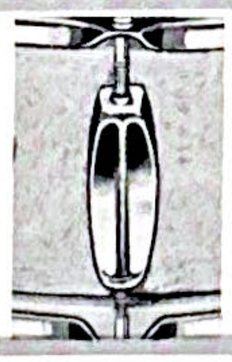
HEX TIPS

Rogers cymbal arms are hex-tipped to fit Swiv-O-Matic Tilters and Extension arms. Hex tips prevent turning. A very desirable feature. Also fits other make tilters.

HEX BROACH

Swiv-O-Matic Tilters and Extension arms are hex broached to fit Rogers hex shafts and hex tips. Makes for better fit, better performance. Also fits other round cymbal arms.



STURDY LUGS

Rogers tension lugs are high quality drawn brass, to withstand the hard use and punishment. Not cast. Neat design, eliminates dirt and grime. Best lug in the field. Light in weight. Tops in durability.

TRIPLE FLANGED COUNTER HOOPS

Another Rogers feature and another reason for the growing fame and reputation of Rogers — the drum to beat. Designed for added strength and perfect rim shots.

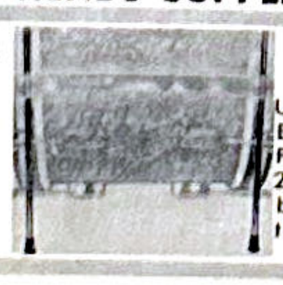
POSITION MARKERS ON TOM TOM LEGS

Rogers Knobby hex legs, as well as Rogers round tom tom legs have position markers notched for even height adjustment.



SPUR RODS

Used with Rogers Wonder Bar and Knobby clamps. Provide 4-way support. 20" Spurs double as cymbal Holder, and are hex tipped.

INTERNAL SPURS

Rogers internal or disappearing spurs have no peer in the drum world. Hex shafts cannot turn. Cross-pins prevent dropping in. Collets are tops.

TOM TOM HOLDERS

The Rogers Swiv-O-Matic series has 7 different models to suit every possible need. Makes tom tom mounting a pleasure.

TILTER

Swiv-O-Matic Tilters are the finest ever designed Flexibility, beauty, and utility are neatly combined. Made with hex broach, fits all cymbal arms.

EXTENSION CYMBAL ARM

This King size Swiv-o-Matic Tilter arm has many uses and becomes almost indispensable. Has hex broach and fits all cymbal arms.

SWIV-O-MATIC TIPS

The problem of drummers was the paramount consideration in engineering the famous Swiv-O-Matic ball and housing unit. No expense was spared in research. Here's just one of many features. Note that housing has FOUR holes, but only TWO adjustment screws are needed. These screws can be moved for left or right hand use.

The TOP HAT outfit is designed to fill the requirements of drummers who desire their equipment compact and within easy reach. Illustration shows Twin 8" x 12" Tom-Toms, positioned at an angle and close together as preferred by top-notch drummers, easily obtainable with Rogers Swiv-O-Matic Holders. Drum stand is eliminated by use of shell mount Swiv-O-Matic holder. The flexibility of Swiv-O-Matic Holders permits positioning of Tom-Toms and Snare Drum at various angles and heights and permits inter-changeable locations — left, right, rear, or front — as desired or required by the drummer.

The "Knobby" Cymbal Holder, mounted on Tom-Tom, is a unique and exclusive Rogers feature. It is solid, strong, and balanced to hold large cymbals in playable positions. "Knobby" DeLuxe Legs provide wide spread for support and stability.

These magnificent, high-caliber Rogers drums together with the grouping of Swiv-O-Matic and Knobby equipment makes a truly unbeatable combination.

This spectacular drum outfit should be seen and its unique set-up tried to be fully appreciated. Here's a surprising concept in drum equipment at its best. WONDER BARS with Knobby clamps eliminate shell mount or hoop mount fittings — perfect equipment for the jobbing drummer.

WONDER BARS hold Tom-Tom, Snare Drum, Cymbals, Traps, and Spur Rods, providing 4 point support for the most solid footing devised for bass drums. Long Spur Rods double as 20" Cymbal Rods. When Swiv-O-Matic Extension Arm is added, they become 32" Cymbal Holders, adjustable within 360°, floor supported to hold large size cymbal. Spurs can be inter-changed front, back, or criss-crossed.

Wonder Bars AND Knobby Attachments stay on Bass Drum and fold in a jiffy for storage or transport. Only instruments and spur rods need be detached.

This equipment with the top-notch Rogers drums and Tom-Toms in this outfit provide a lasting thrill and satisfaction for drummers looking for the ultimate.

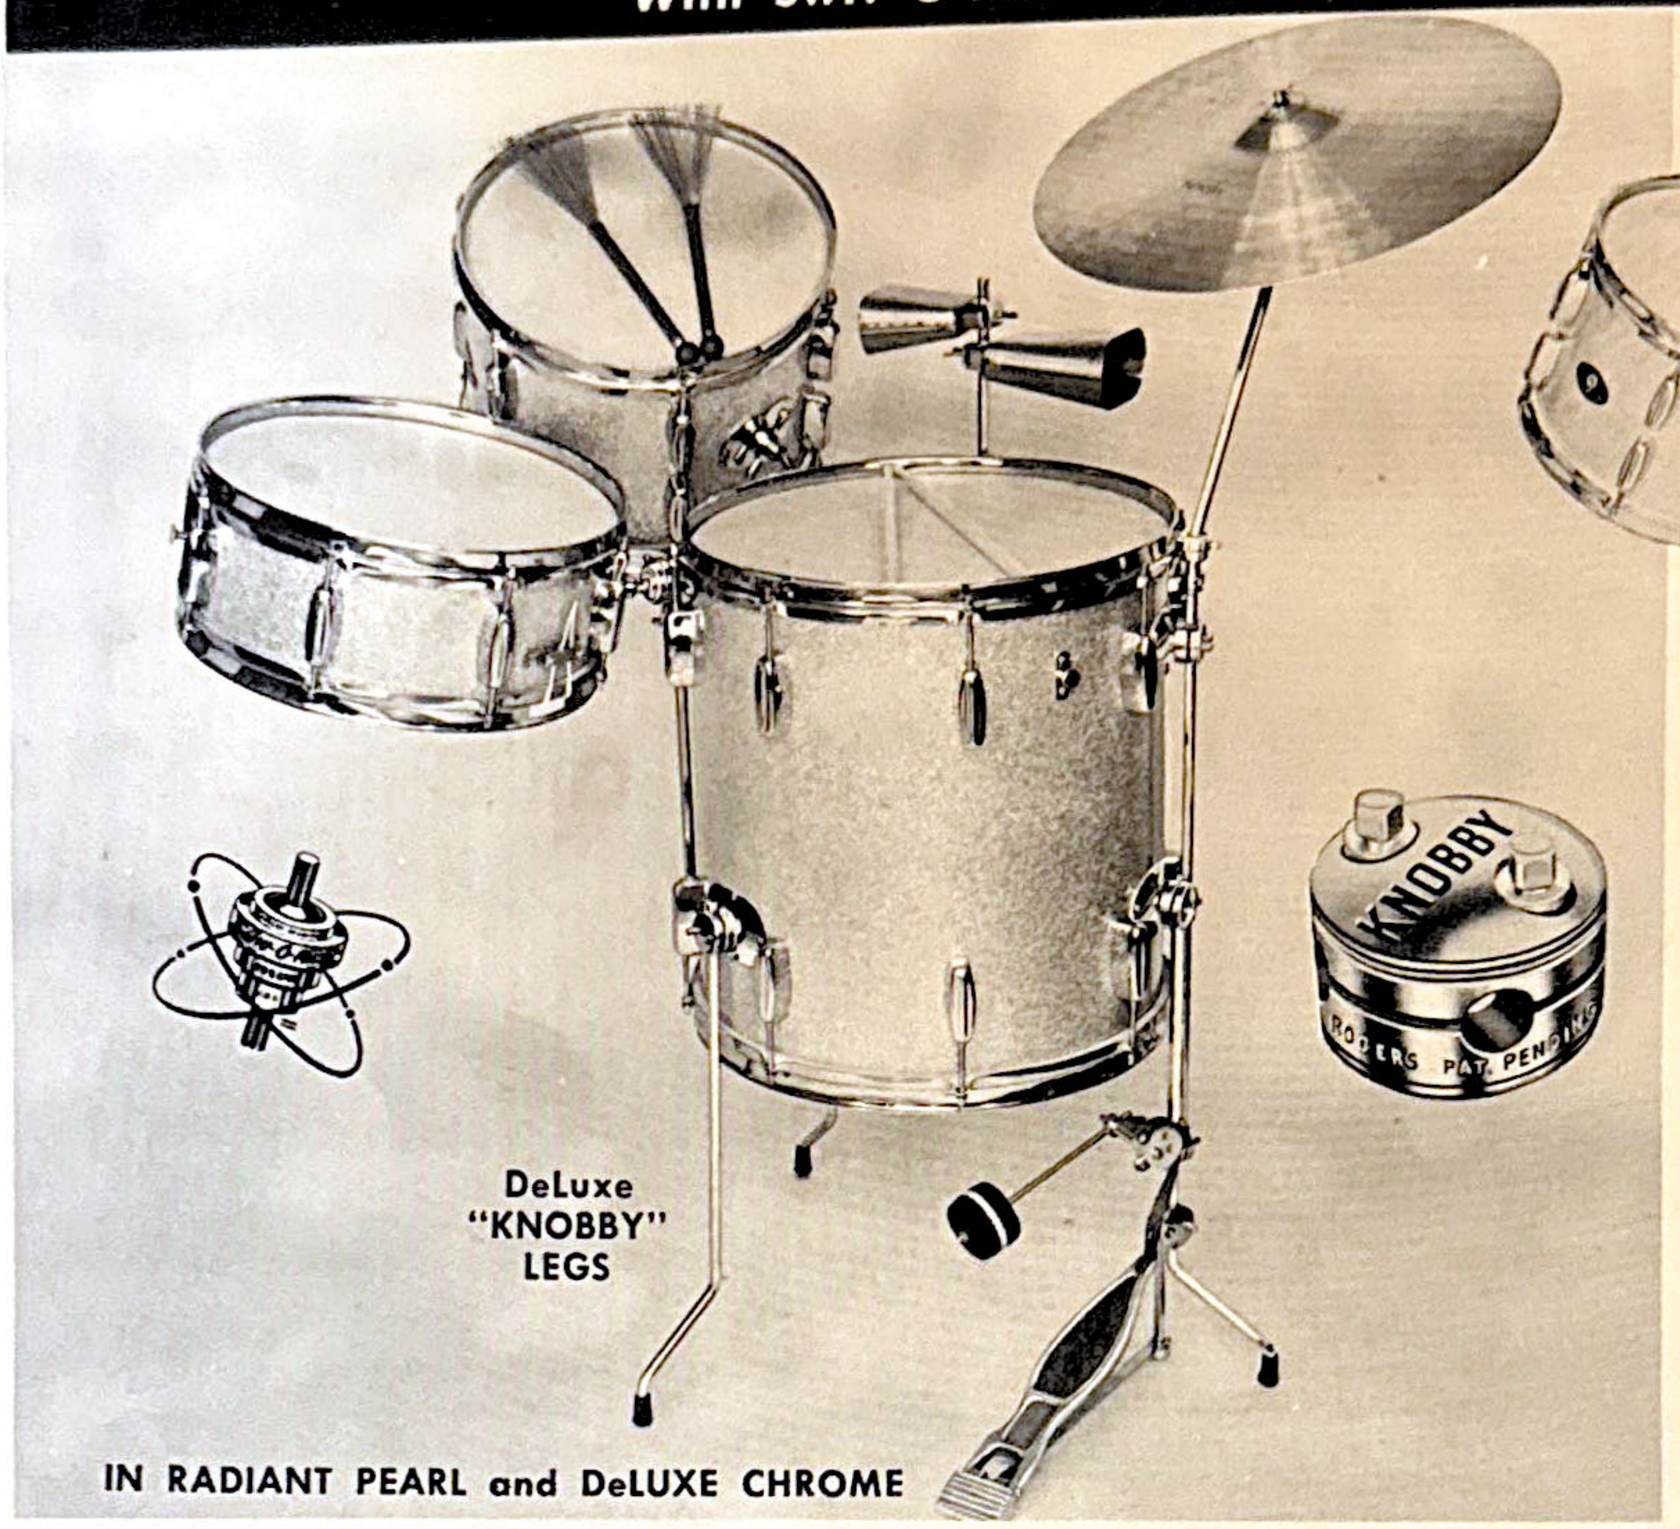
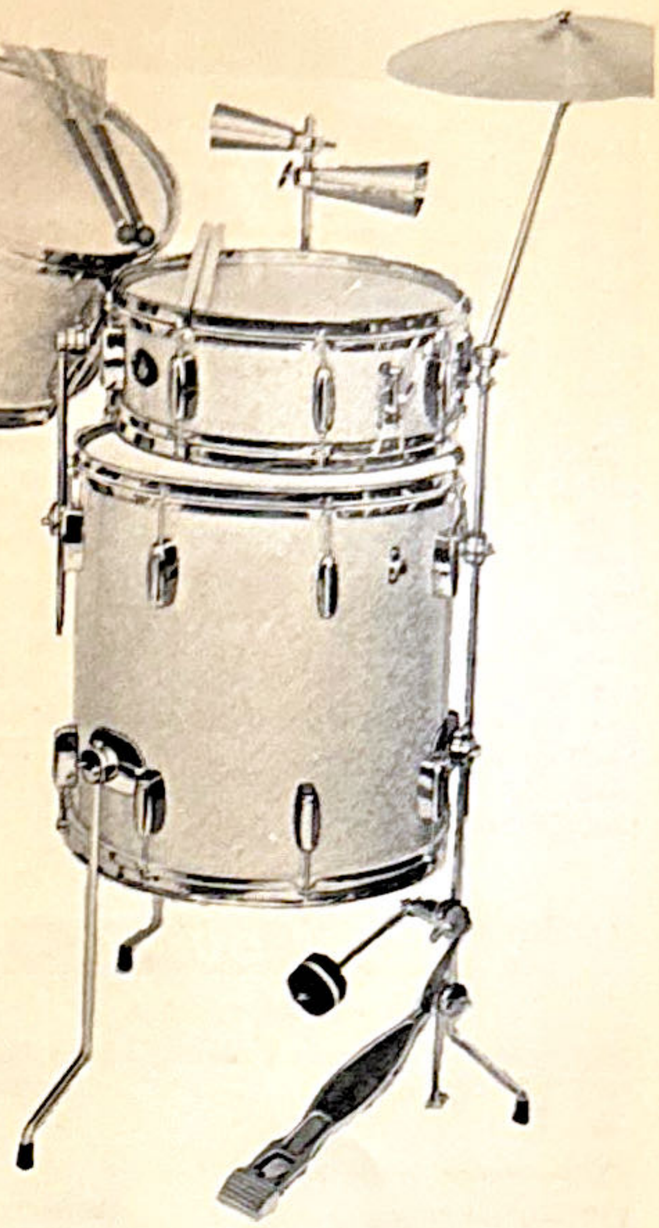
PARK LANE "COCKTAIL" OUTFITS

With Swiv-O-Matic and KNOBBY Attachments



DeLuxe "KNOBBY" LEGS

IN RADIANT PEARL and DeLUXE CHROME



Park Lane Outfit set for standing position. Separate snare and floor tom-tom provide true individual response.

A stunning stand-up, sit-down outfit — another reason why foremost drummers are flocking to Rogers.

The best features of the Rogers "Swiv-O-Matic" and "Knobby" Attachments are combined with the super quality Rogers instruments to create this exciting outfit. The Swiv-O-Matic Holder (No. 380-R) permits either side or top positioning of snare drums. Extra long rod provides enough height for the tall drummer in either sitting or standing position. Cocktail upbeat foot pedal (No. 205-R) is adjustable to height, making it possible to change stroke action of pedal to suit individual taste. It is also adjustable for position or stance. "Knobby" DeLuxe Tom-Tom legs with wide spread provide perch for full balance to properly hold snare drum, smaller tom-toms, cymbals, cowbells, etc.
